## **Seasonal Variations Of The Eskimo A Study In Social Morphology:**

**Seasonal Variations of the Eskimo** Marcel Mauss, 2013-10-08 Seasonal Variations of the Eskimo is one of the first books in anthropology to adopt a sociological approach to the analysis of a single society Mauss links elements of anthropology and human geography arguing that geographical factors should be considered in relation to a social context in all its complexity The work is an illuminating source on the Eskimo and a proto type of what an anthropologist should do with ethnographic data and exerted considerable influence on the development of social anthropology English translation first published in 1979 **Marcel Mauss** Wendy James, N. J. Allen, 1998 Presents results of a September 1996 conference held at Oxford University re evaluating the importance of the writings and inspiration of Marcel Mauss the nephew and younger colleague of Emile Durkheim Explores not only the context of Mauss work and his influence on other writers but also the resonance of some of his key themes for the concerns of today s anthropology and sociology Papers are arranged in sections on the scholar and his time foundations of Maussian anthropology critiques of exchange and power and materiality body and history Annotation copyrighted by Book News Inc Portland OR **Factions, Friends and Feasts** Jeremy Boissevain, 2013-03-01 Drawing on field research in Malta Sicily and among Italian emigrants in Canada this book explores the social influence of the Mediterranean climate and the legacy of ethnic and religious conflict from the past five decades Case studies illustrate the complexity of daily life not only in the region but also in more remote academe by analysing the effects of fierce family loyalty emigration and the social consequences of factionalism patronage and the friends of friends networks that are widespread in the region Several chapters discuss the social and environmental impact of mass tourism how locals cope and the paradoxical increase in religious pageantry and public celebrations The discussions echo changes in the region and the related development of the author s own interests and engagement with prevailing issues through his career *Reintroducing Marcel Mauss* Christian Papilloud, 2023-11-24 This reintroduction to the life and work of Marcel Mauss highlights his coherent and original thought both as an academic and an engaged intellectual of his time Since his work regained attention in social sciences in the later 20th century Reintroducing Marcel Mauss also emphasises the progression of research on Mauss s thought bringing to light various neglected aspects of his scientific project including his political commitment and writings With a review of the contemporary research on Mauss s legacy it offers a fuller understanding of the questions with which he was concerned questions which converged in the challenge of working out alternative ways for a social life that promotes a genuinely social society inspired by socialist and cooperative values It will therefore appeal to scholars of sociology and anthropology with interests in the history and development of sociology and the contemporary importance of classical social theory The Seasons Luke Fischer, David Macauley, 2021-07-01 Although the seasons have been a perennial theme in literature and art their significance for philosophy and environmental theory has remained largely unexplored This pioneering book demonstrates the ways in which inquiry into the seasons reveals new and

illuminating perspectives for philosophy environmental thought anthropology cultural studies aesthetics poetics and literary criticism The Seasons opens up new avenues for research in these fields and provides a valuable resource for teachers and students of the environmental humanities The innovative essays herein address a wide range of seasonal cultures and geographies from the traditional Western model of the four seasons spring summer fall and winter to the Indigenous seasons of Australia and the Arctic Exemplifying the crucial importance of interdisciplinary research The Seasons makes a compelling case for the relevance of the seasons to our daily lives scientific understanding diverse cultural practices and politics

**Durkheim and After** Philip Smith, 2020-04-17 mile Durkheim's major works are among the founding texts of the discipline of sociology but his importance lies also in his immense legacy and subsequent influence upon others In this book Philip Smith examines not only Durkheim's original ideas but also reveals how he inspired more than a century of theoretical innovations identifying the key paths bridges and dead ends as well as the tensions and resolutions in what has been a remarkably complex intellectual history Beginning with an overview of the key elements of Durkheim's mature masterpieces Smith also examines his lesser known essays commentaries and lectures He goes on to analyse his immediate influence on the *Ann e Sociologique* group before tracing the international impact of Durkheim upon modern anthropology sociology and social and cultural theory Smith shows that many leading social thinkers from Marcel Mauss to Mary Douglas and Randall Collins have been carriers for the multiple pathways mapped out in Durkheim's original thought This book will be essential reading for any student or scholar seeking to understand this fundamental impact on areas ranging from social theory and anthropology to religious studies and beyond □ *Mauss, Marcel, and Henri Beuchat 1979(1904-5), Seasonal variations of the Eskimo*, 1991

**Crafting Collectivity** Chelsea Schelly, 2015-12-03 Every summer thousands of people assemble to live together to celebrate the Annual Gathering of the Rainbow Family Participants establish temporary systems of water distribution and filtration sanitation health care and meals provided freely to all who gather and they develop sharing and trading systems recreational opportunities and educational experiences distinct to this creative social world The Rainbow Family has invented itself as a unique modern culture without formal organization providing the necessities of life freely to all who attend The Annual Gathering of the Rainbow Family has been operating for more than forty years as an experiment in liberty that demonstrates how material organization participation and cultural connection can reshape social relationships and transform individual lives Grounded in sociological theory and research the book considers what kind of culture the material systems of Babylon reinforce and how society could facilitate the kind of social world and human welfare humans desire Marcel Mauss Marcel Fournier, 2015-07-28 This book is the first intellectual biography of Marcel Mauss 1872 1950 the father of modern ethnology and a leading early figure in the French school of sociology Mauss left a rich intellectual legacy in the social sciences influencing the work of Claude Lévi Strauss and others His masterpiece the 1925 essay *The Gift* on reciprocity and gift economies among archaic societies remains required reading in anthropology and his work more

broadly resonates today with students and scholars in fields from the history of religion to sociology Mauss taught the first generation of French field researchers in anthropology and helped secure the legacy of his uncle mile Durkheim the founder of modern sociology In Marcel Mauss A Biography Marcel Fournier situates Mauss s ideas in their biographical context focusing not only on the details of Mauss s life but also on the people and the academic milieus with which he was associated in early twentieth century France He shows how Mauss through his writings teaching and socialist politics found himself at the center of the intellectual and political life of his country and of Europe through two world wars The book addresses among other topics the effect of the Dreyfus Affair and the First World War on Mauss s thought and the inner dynamics of the group of scholars around Mauss and Durkheim at the journal they helped establish Ann e Sociologique The fruit of vast research Marcel Mauss A Biography is the life story both of a legendary scholar and of the institutionalization of sociology and anthropology **Folk** ,1988 **Inuit Shamanism and Christianity** Frédéric B. Laugrand, Jarich G.

Oosten, 2010-01-01 Using archival material and oral testimony collected during workshops in Nunavut between 1996 and 2008 Fr d ric Laugrand and Jarich Oosten provide a nuanced look at Inuit religion offering a strong counter narrative to the idea that traditional Inuit culture declined post contact They show that setting up a dichotomy between a past identified with traditional culture and a present involving Christianity obscures the continuity and dynamics of Inuit society which has long borrowed and adapted outside elements They argue that both Shamanism and Christianity are continually changing in the Arctic and ideas of transformation and transition are necessary to understand both how the ideology of a hunting society shaped Inuit Christian cosmology and how Christianity changed Inuit shamanic traditions *Environmental Anthropology* Michael R. Dove, Carol Carpenter, 2008 *Environmental Anthropology A Reader* is a collection of historically significant readings dating from early in the twentieth century up to the present on the cross cultural study of relations between people and their environment Provides the historical perspective that is typically missing from recent work in environmental anthropology Includes an extensive intellectual history and commentary by the volume s editors Offers a unique perspective on current interest in cross cultural environmental relations Divided into five thematic sections 1 the nature culture divide 2 relationship between environment and social organization 3 methodological debates and innovations 4 politics and practice and 5 epistemological issues of environmental anthropology Organized into a series of paired papers which speak to each other designed to encourage readers to make connections that they might not customarily make BAR International Series ,1978 **Inuit Builders** Thomas Stuart Carnegie, 1984 **Dictionary of Modern Culture** Justin Wintle, 1984

**Canadiana** ,1981 **Recent Polar Literature** ,1980 "Never Stand Alone" Christine Helliwell, 2001 This monograph provides an account of sociality in a Dayak community in southwest Borneo demonstrating the importance of both rice and ritualized hearths in the formation and maintenance of social relations there BOOKJACKET **If Rain Doesn't Come** R. J. Fisher, 1997 Rainfall is very unreliable in western Rajasthan and drought and famine are frequent Applying ecological

anthropological approaches this study shows how different socio economic and caste groups adopt different adaptive strategies for subsistence and demonstrate the inter relationships between physical social economic and political factors in the human ecology of the region      *Observing the Economy* Chris A.
