

elite formation and their cooperation with old elites, and postcommunist political culture.

Those looking for new details about the electoral law in Poland or the specifics of the privatization program in the Czech Republic will be disappointed in this book. In places throughout the book, the regional specialist will be annoyed with the author's interpretation of local events. For instance, the author claims that "cultural elites had to substitute for the lack of political charismatic leaders" (4), yet surely most Polish experts would argue that Lech Wałęsa was a charismatic figure with rather paltry cultural credentials. He also writes that "the new wave of nationalism in Eastern Europe after the erosion of socialism came as a surprise to many observers" (42), yet there is a very rich literature that predicted its rise.

But this is not a work of history but of political science, and this should be kept in mind. In fact, this is one of the first theoretical treatments of postcommunism that must be read by anyone interested in theorizing about postcommunism. Should it come out in paperback, it will also make an ideal teaching text.

The Roundtable Talks and the Breakdown of Communism. Ed. Jon Elster. Constitutionalism in Eastern Europe. Chicago: University of Chicago Press, 1996. vi, 247 pp. Index. Hard bound.

Roundtables emerged as ad hoc political mechanisms between spring 1989 and spring 1990 in eastern Europe. They played roles of varying importance in different countries in helping to negotiate the peaceful and constitutional abdication of communist power in the region. As such they were primarily concerned with hammering out the modalities and timing of the first free elections and with introducing the crucial political freedoms of organization, publication, and discussion. Only the Polish, and to a lesser extent the Hungarian, roundtable had some parallels with the 1787 Philadelphia Convention in that they also discussed details of the future constitutional order as well as the mechanisms by which power was to be transferred. They also dealt, implicitly at least, with the thorny issues of guarantees against the future persecution of the erst-while communist powerholders and of protection for opposition figures in the pre-democratization stage.

This volume, the first in the series Constitutionalism in Eastern Europe, is edited by Jon Elster in a manner that rather favors law, political theory, and political history over political science. He defines roundtables in his introduction as "semi-formal meetings, of a pre-constitutional or quasi-constitutional nature" (3-4) between communist leaders and representatives of the opposition. I agree with him that the specific character of each roundtable was determined as much by the chronological order in which it was held as by its domestic political context. The Polish, Hungarian, and Bulgarian cases were, therefore, marked by real negotiations over uncertain outcomes, which for a while seemed to be heading toward producing mixed systems, even third-way compromises. In contrast, the East German and Czechoslovak roundtables, to use Elster's expressive phrase, merely spelled out "the terms of defeat" (17-18) for the communists.

The five case studies of the roundtables in Poland (Wiktor Osiatynski), Hungary (András Sajó), German Democratic Republic (Ulrich K. Preuss), Czechoslovakia (Miloš Calda), and Bulgaria (Rumyana Kolarova and Dimitr Dimitrov) are written by east Europeans who had varying degrees of direct involvement in the events. These are supplemented by a concluding chapter by Tang Tsou on the concurrent alternative outcome of the time, the military suppression of opposition in Tiananmen Square by the Chinese communists. Tsou basically argues that the Chinese political framework had not developed the pluralism, civil society, and informal state-society linkages characteristic of east central Europe. Chinese communist political culture also favored

Communist Power in Poland Jacqueline Hayden, 2006-03-23 Based on extensive original research including interviews with key participants this book investigates the sudden and unforeseen collapse of communist power in Poland in 1989 It sets out the sequence of events and examines the strategies of the various political groupings prior to the partially free election of June 1989 This volume argues that the specific negotiating strategies adopted by the communist party representatives in the Round Table discussions before the elections was a key factor in communism s collapse The book shows that on many occasions PZPR decision makers ignored expert advice and many Round Table bargains went against the party s best interests Using in depth interviews with major party players including General Jaruzelski General Kiszczak and Mieczyslaw Rakowski as well as Solidarity advisors such as Adam Michnik the text provides a unique source of first hand accounts of Poland s revolutionary drama *Von der Emanzipation zur Integration* Krzysztof Glass, Jan Škaloud, Zbigniew
