Oxford Universal English Dictionary on Historical Principles William Little, Sir James Augustus Henry Murray, 1937 This Dictionary is an abridgement officially authorized by the Delegates of the Oxford University Press of A New English Dictionary on Historical Principles later known as The Oxford English Dictionary The aim of this Dictionary is to present in miniature all the features of the principal work It is designed to embrace not only the literary and colloquial English of the present day together with such technical and scientific terms as are most frequently met with or are likely to be the subject of inquiry but also a considerable proportion of obsolete archaic and dialectal words and uses Preface
