Precalculus Marvin L. Bittinger, Judith A. Beecher, David J. Ellenbogen, Judith A. Penna, 2000-08 This text was written with the goal of having students succeed in this course and gain a foundation to succeed in further mathematics courses To that end the authors have written a text with a theme showing the connections between the zeros x intercepts and solutions with a series of side by side features designed to show examples being solved algebraically and graphically and with the knowledge that many students are using graphing technology to help them learn the key concepts in this course and so the book automatically comes bundled with a free graphing calculator manual Thus the approach of this text is more interactive than most texts and the authors feel that accordingly more students will succeed in this course Precalculus Marvin L.
