## **Rostow Kennedy And The Rhetoric Of Foreign Aid:**

**Rostow, Kennedy, and the Rhetoric of Foreign Aid** Kimber Charles Pearce, 2001 Drawing upon Rostow's writings, public speeches, congressional testimony, personal interviews, and recently declassified documents, Pearce examines the economist's protracted campaign to convince policymakers to apply his theory of economic growth to the development aid initiatives of Presidents Dwight D. Eisenhower, John F. Kennedy, and Lyndon B. Johnson. The UN and Global Political Economy John Toye, Richard Toye, 2004-07-09 Against the backdrop of a 20-year revolt against free trade orthodoxy by economists inside the UN and their impact on policy discussions since the 1960s, the authors show how the UN both nurtured and inhibited creative and novel intellectual contributions to the trade and development debate. Presenting a stirring account of the main UN actors in this debate, The UN and Global Political Economy focuses on the accomplishments and struggles of UN economists and the role played by such UN agencies as the Department of Economic and Social Affairs, the United Nations Commission on Trade and Development, and the Economic Commission for Latin America and the Caribbean. It also looks closely at the effects of the Latin American debt crisis of the 1980s, the growing strength of the World Trade Organization, WTO, in the 1990s, and the lessons to be drawn from these and other recent developments. Cult of the Irrelevant Michael C. Desch, 2019 How professionalization and scholarly rigor made social scientists increasingly irrelevant to US national security policy. To mobilize America's intellectual resources to meet the security challenges of the post-9/11 world, US Secretary of Defense Robert M. Gates observed that we must again embrace eggheads and ideas. But the gap between national security policymakers and international relations scholars has become a chasm. In Cult of the Irrelevant, Michael Desch traces the history of the relationship between the Beltway and the Ivory Tower from World War I to the present day. Recounting key Golden Age academic strategists such as Thomas Schelling and Walt Rostow, Desch's narrative shows that social science research became most oriented toward practical problem solving during times of war, and that scholars returned to less relevant work during peacetime. Social science disciplines like political science rewarded work that was methodologically sophisticated over scholarship that engaged with the messy realities of national security policy and academic culture increasingly turned away from the job of solving real-world problems. In the name of scientific objectivity, academics today frequently engage only in basic research that they hope will somehow trickle down to policymakers. Drawing on the lessons of this history, as well as a unique survey of current and former national security policymakers, Desch offers concrete recommendations for scholars who want to shape government work. The result is a rich intellectual history and an essential wake-up call to a field that has lost its way. **China's Education Aid to Africa** Wei Ye, 2023-05-31 China's rise as an aid provider in Africa has caught global attention, with China's activity being viewed as the projection of soft power of a neo-colonialist kind in an international relations context. This book, which focuses on China's education aid, government scholarships, training, Confucius Institutes, dispatched teachers, etc., reveals a much more complicated picture. It outlines how

the divide between the Chinese Ministry of Commerce and the Ministry of Education hinders China's soft power projection how much of China's aid is bound up with an education for economic growth outlook mirroring China's own recent experiences of economic development and how China's aid prioritized to reflect the commercial sector's interests is out of step with most international development aid which is dominated by education agendas and the campaigns of international organizations and traditional donors this leaves China easily exposed to the charge of neo colonialism This situation also reveals insufficient knowledge production of China and in South South Cooperation Substantial production of Southern knowledge should recognize the international development cooperation architecture as an open system by which both traditional donors and Southern countries transform

**America's Helping Hand** Sergei Y. Shenin, 2005 Since the end of the Second World War economic assistance has turned into the extremely important instrument of regulating international relations However the significance of foreign aid becomes even greater for the periods of restructuring the system of international economic relations when it is necessary to overcome nationalistic barriers in order to influence the character and direction of recipients economic development At the times of serious international political and military crises foreign aid can change its destination from economic development to security goals During Eisenhower's presidency the struggle between these two tendencies which were formulated in the so called development assistance and mutual security doctrines was waged particularly aggressively and uncompromisingly since the control over foreign aid allowed any party to direct to a considerable degree the entire world order building process

Beisner, 2003 In this book a team of distinguished historians has culled the most important published and unpublished works in U S diplomatic literature and thoroughly annotated them The work comprehensively covers five centuries from America's colonial era to the end of the 20th century with half the entries on works published since the first edition and nearly half on post World War II subjects

**The Prospect of Presidential Rhetoric** James Arnt Aune, Martin J. Medhurst, 2008 Culminating a decade of conferences that have explored presidential speech The

Prospect of Presidential Rhetoric assesses progress and suggests directions for both the practice of presidential speech and its study In Part One following an analytic review of the field by Martin Medhurst contributors address the state of the art in their own areas of expertise Roderick P Hart then summarizes their work in the course of his rebuttal of an argument made by political scientist George Edwards that presidential rhetoric lacks political impact Part Two of the volume consists of the forward looking reports of six task forces comprising more than forty scholars charged with outlining the likely future course of presidential rhetoric as well as the major questions scholars should ask about it and the tools at their disposal The Prospect of Presidential Rhetoric will serve as a pivotal work for students and scholars of public discourse and the presidency who seek to understand the shifting landscape of American political leadership     The Lyceum and Public Culture in the Nineteenth-century United States Angela G. Ray,2005 Angela Ray provides a refreshing new look at the lyceum lecture system as it developed in the United States from the 1820s to the 1880s She argues that the lyceum contributed to the creation of an American public at a time when the country experienced a rapid change in land area increasing immigration and a revolution in transportation communication technology and social roles The history of the lyceum in the nineteenth century illustrates a process of expansion diffusion and eventual commercialization In the late 1820s a politically and economically dominant culture the white Protestant northeastern middle class institutionalized the practice of public debating and public lecturing for education and moral uplift In the 1820s and 1830s the lyceum was characterized by organized groups in cities and towns particularly in the Northeast and the Old Northwest now the Midwest These groups were established to promote debate to create a setting for study and to provide a forum for members lecturing By the 1840s and 1850s however most lyceums concentrated on the sponsorship of public lectures presented for institutional profit as well as public instruction and entertainment Eventually lyceum lectures became a commercial enterprise and desirable platform for celebrities who wished to expand their incomes from lecturing     The Register of the Kentucky Historical Society Kentucky Historical Society,2002     **The Reconstruction Desegregation Debate** Kirt H. Wilson,2002-05 Rather than trying to reconcile the various conflicting accounts of the period just after the US Civil War or to present a complete account of Reconstruction Wilson rhetorical studies U of Minnesota analyzes the power of rhetoric to raise the hopes and aspirations of recently freed slaves while simultaneously affecting political judgements that narrow their opportunities Annotation copyrighted by Book News Inc Portland OR     **Christianity and the Mass Media in America** Quentin J. Schultze,2003-10-31 The mass media and religious groups in America regularly argue about news bias sex and violence on television movie censorship broadcast and film content rating systems and government regulation of the media This work shows how religion and media in America have borrowed each other s rhetoric     **E+Z, Entwicklung und Zusammenarbeit** ,2003     **Internationale Bibliographie der Rezensionen wissenschaftlicher Literatur** ,2003  
*Religious Expression and the American Constitution* Franklyn S. Haiman,2003-10-31 First Amendment rights have been

among the most fiercely debated topics in the aftermath of 9 11 In the current environment and fervor for homeland security personal freedoms in exchange for security are coming under more scrutiny Among these guaranteed freedoms are the protection of religious expression given by the U S Constitution and the constitutional prohibitions against behaviors that violate the separation of church and state The mandate that the government shall make no law respecting an establishment of religion or prohibiting the free exercise thereof is a general principle that has guided American courts in interpreting the original intent of the First Amendment In Religious Expression and the American Constitution Haiman focuses on the current state of American law with respect to a broad range of controversial issues affecting religious expression both verbal and nonverbal along with a review of the recent history of each issue to provide a full understanding **Archiv für Sozialgeschichte** ,2008
