Royal Correspondence In The Hellenistic Period:

Royal Correspondence in the Hellenistic Period Charles Bradford Welles, 1974 Unchanged reprint of the edition London 1934 *Paul and the Ancient Letter Form* Stanley E. Porter, Sean A. Adams, 2010 Throughout the last century there has been continuous study of Paul as a writer of letters Although this fact was acknowledged by previous generations of scholars it was during the twentieth century that the study of ancient letter writing practices came to the fore and began to be applied to the study of the letters of the New Testament This volume seeks to advance the discussion of Paul's relationship to Greek epistolary traditions by evaluating the nature of ancient letters as well as the individual letter components These features are evaluated alongside Paul's letters to better understand Paul's use and adaptations of these traditions in order to meet his communicative needs

Royal Correspondence in the Hellenistic Period; A Study in Greek Epigraphy, by C. Bradford Welles Charles Bradford Welles, 1934 [Ancient Letters and the New Testament](#) Hans-Josef Klauck, Daniel P. Bailey, 2006 This volume places the New Testament letters squarely in the middle of all the important letter corpora of antiquity Chapters cover the basic letter formula papyrus and postal delivery non literary and diplomatic correspondence Greek and Latin literary letters epistolary theory letters in early Judaism and all the letters of the New Testament Part I of each chapter surveys each corpus followed by detailed exegetical examples in Part II Comprehensive bibliographies and 54 exercises with answers suit this guide to student and scholar alike Publisher's website [Royal Correspondence in the Hellenistic period](#) Charles Bradford Welles, 1934

State Correspondence in the Ancient World Karen Radner, 2014-01-21 State Correspondence in the Ancient World introduces the reader to the state correspondences of centralized states and empires of the Mediterranean and the Middle East from the 15th century BC to the 6th century AD and analyses their role in ensuring the stability of these geographically extensive state systems [The Apocalyptic Letter to the Galatians](#) James M. Scott, 2021-05-18 One apocalyptic reading of Paul's letter to the Galatians has been attempted before and is now widely accepted but that reading is not based on a thorough engagement with Jewish apocalyptic traditions of the Second Temple period In this book James M Scott argues that there is an essential continuity between Galatians and Paul's Jewish past and that Paul uses the apocalyptic Epistle of Enoch 1 Enoch 92 105 as a literary model for his own letter Scott first contextualizes the Epistle of Enoch using the entire Enochic corpus and explores the extensive similarities and some significant differences between the Enochic tradition and early Stoicism Then he turns to deal specifically with Paul's letter to the Galatians showing that despite their obvious differences the two apocalyptic letters have some remarkable features in common as well This approach to the interpretation of Galatians fundamentally stands to change the way biblical scholars understand Paul's letter and the gospel that he preached Paul is within Judaism if the net for what is included in Judaism is wide enough to encompass the Enochic tradition [Ancient Greek Letter Writing](#) Paola Ceccarelli, 2013-10-24 In this volume Ceccarelli offers a history of the development of letter writing in ancient Greece from the archaic to the early Hellenistic

period Highlighting the specificity of letter writing as opposed to other forms of communication and writing the volume looks at documentary letters but also traces the role of embedded letters in the texts of the ancient historians in drama and in the speeches of the orators While a letter is in itself the transcription of an oral message and as such can be either truthful or deceitful letters acquired negative connotations in the fifth century especially when used for transactions concerning the public and not the private sphere Viewed as the instrument of tyrants or near eastern kings these negative connotations were evident especially in Athens where comedy and tragedy testified to an underlying concern with epistolary communication In other areas of the Greek world such as Sparta or Crete the letter may have been seen as an unproblematic instrument for managing public policies with inscriptions documenting the official use of letters not only by the Hellenistic kings but also by some poleis
