## Sayings And Such:

Russian-English Dictionary of Idioms, Revised Edition Sophia Lubensky, 2013-01-01 This is the most innovative comprehensive and scholarly bilingual dictionary of Russian idioms available today It includes close to 14 000 idioms set expressions and sayings found in contemporary colloquial Russian and in literature from the nineteenth century to the present The Russian idioms are provided with many English equivalents to render idioms in various contexts Illustrative examples are cited to show how the idioms are used in context Each entry also contains a grammatical description of the idiom a definition an innovative feature for a bilingual dictionary and stylistic and usage information A most notable part of the work is the alphanumeric index that makes finding the right expression very easy     *The Noun Phrase in Romance and Germanic* Antonia Petronella Sleeman, Harry Perridon, 2011 One of the recurrent questions in historical linguistics is to what extent languages can borrow grammar from other languages It seems for instance hardly likely that each average European language developed a definite article all by itself without any influence from neighbouring languages It is on the other hand by no means clear what exactly was borrowed since the way in which definiteness is expressed differs greatly among the various Germanic and Romance languages and dialects One of the main aims of this volume is to shed some light on the question of what is similar and what is different in the structure of the noun phrase of the various Romance and Germanic languages and dialects and what causes this similarity or difference     *Words to the Wise; Or Earnest Counsels ... on the Christian Training of the Young, Etc* Edward MEADE (Rector of Winkfield.), 1873     *"The" Laughable Stories* E. A. Wallis Budge, 1897     *Recent Advances in the Syntax and Semantics of Tense, Aspect and Modality* Louis de Saussure, Jacques Moeschler, Genoveva Puskás, 2007 This book is an up to date milestone for the studies of temporality and language in particular regarding syntax and semantics Tenses aspect and modality are investigated both at the theoretical and at the descriptive levels involving many differences     *Rational Theology.
