Woke, Inc. Vivek Ramaswamy, 2021-08-17 In this New York Times bestseller a young and successful entrepreneur makes the case that politics has no place in business and sets out a new vision for the future of American capitalism There s a new invisible force at work in our economic and cultural lives It affects every advertisement we see and every product we buy from our morning coffee to a new pair of shoes Stakeholder capitalism makes rosy promises of a better more diverse environmentally friendly world but in reality this ideology championed by America s business and political leaders robs us of our money our voice and our identity Vivek Ramaswamy is a traitor to his class He s founded multibillion dollar enterprises led a biotech company as CEO he became a hedge fund partner in his 20s trained as a scientist at Harvard and a lawyer at Yale and grew up the child of immigrants in a small town in Ohio Now he takes us behind the scenes into corporate boardrooms and five star conferences into Ivy League classrooms and secretive nonprofits to reveal the defining scam of our century The modern woke industrial complex divides us as a people By mixing morality with consumerism America s elites prey on our innermost insecurities about who we really are They sell us cheap social causes and skin deep identities to satisfy our hunger for a cause and our search for meaning at a moment when we as Americans lack both This book not only rips back the curtain on the new corporatist agenda it offers a better way forward America s elites may want to sort us into demographic boxes but we don t have to stay there Woke Inc begins as a critique of stakeholder capitalism and ends with an exploration of what it means to be an American today a journey that begins with cynicism and ends with hope
