

A festive holiday-themed promotional banner. On the left, a white sign with a red ribbon bow at the top and icicle-like decorations at the bottom displays the text "CYBER WEEK SALE". The sign is set against a red background with warm white string lights. To the right of the sign is a small, decorated Christmas tree with gold lights and red ornaments. Further right is a large stack of wrapped gifts in various colors (red, gold, brown, orange) with different patterns and bows. The foreground features a white gift box with torn paper, a small red cup, a purple cup, an orange slice, and a small red gift box on a brown surface.

Chevalier,2002 Despite the interest in measuring price sensitivity of online consumers most academic work on Internet commerce is hindered by a lack of data on quantity In this paper we use publicly available data on the sales ranks of about 20 000 books to derive quantity proxies at the two leading online booksellers Matching this information to prices we can directly estimate the elasticities of demand facing both merchants as well as create a consumer price index for online books The results show significant price sensitivity at both merchants but demand at Barnes and Noble is much more price elastic than is demand at Amazon The data also allow us to estimate the magnitude of retail outlet substitution bias in the CPI due to the rise of Internet sales The estimates suggest that prices online are much more variable than the CPI which understates inflation by more than double in one period and gets the sign wrong in another *Marketing on the Internet* Jan Zimmerman,2001 This updated edition reflects the rapid changes in such online marketing topics as Web site design secure payment methods Web promotion techniques and building relationships with online customers Case studies of online business successes explain the concepts found in the book and illustrate how they work in real life situations 55 photos 15 charts 10 tables The New York Times Index ,2007 **Teaching Direct Marketing and Small Farm Viability** University of California, Santa Cruz.
