Soukup,2021-02-23 For the better part of a century the Left has been waging a slow methodical battle for control of the institutions of Western civilization During most of that time business and American Big Business in particular remained the last redoubt for those who believe in free people free markets and the criticality of private property Over the past two decades however that has changed and the Left has taken its long march to the last remaining non Leftist institution Over the course of the past two years or so a small handful of politicians on the Right Senators Tom Cotton Marco Rubio and Josh Hawley to name three have begun to sense that something is wrong with American business and have sought to identify the problem and offer solutions to rectify it While the attention of high profile politicians to the issue is welcome to date the solutions they have proposed are inadequate for a variety of reasons including a failure to grasp the scope of the problem failure to understand the mechanisms of corporate governance and an overreliance on state imposed top down solutions This book provides a comprehensive overview of the problem and the players involved both on the aggressive hardcharging Left and in the nascent conservative resistance It explains what the Left is doing and how and why the Right must be prepared and willing to fight back to save this critical aspect of American culture from becoming another more economically powerful version of the woke college campus
