It covers professional Olympic and collegiate sports and highlights the major issues that impact each of these broad areas. Each chapter features concise introductions, a broad range of focused readings, and targeted discussion questions and graphs and tables to convey relevant financial data and other statistics.

The Business of Sports Mark Conrad, 2017-02-17 The Business of Sports provides a comprehensive foundation of the economic, organizational, legal, and political components of the sports industry. Geared for journalism, communication, and business students but also an excellent resource for those working in sports, this text introduces readers to the ever-increasing complexity of an industry that is in constant flux. Now in its third edition, the volume continues to offer a wealth of statistics and case studies up to date with the newest developments in sports business and focused on cutting-edge issues and topics, including the many changes in international sports and the role of analytics in decision making and tax rules that have a major effect on athletes and teams.

*CALIFORNIA OIL AND GAS, A Business of Sports and Economy* Jimmy Hindle, 2016-04-29 An expert craftsmanship of sports journalism and a powerful statement about the business of sports and economy. Certain character depictions are fictitious to convey the utter seriousness of a sport's specification where the ownerships of Champcar waged a boycott against IndyCar and Indianapolis Motor Speedway IMS. Otherwise, oil and gas is a tightening up of economic realities: the real people on the verge of a financial takeover and how such economies work in relation to Major Leagues Sports. In historically speaking, the most productive times in U.S. economy. The Heists are back and Phil Elmach driving for James Sedgwick. Only in oil and gas Elmach joins Jake Coote and the experts in the Sunshine State. Turbochargers made the stealthiest cars and successively IndyCar's resolution of a sport's escalation costs. To the supercops, the top outfits in the Champcar IndyCar merger war pose a threat in a downturn economy and the owner teams recognize that tires aren't the only switch ups but teams transferring into IndyCar. In the shuffle of cash egos and clashes, everyone gets caught to the comic drama of staying steps ahead of a supercop. In the chase, the story distinguishes myth from the legendary figures. Miles Deere's epic battles fit the grand schemes. Ground effects sold on American March know how was a version of Desert Storm on neighboring Area 51 and runs open-wheel cars in excess of constructor rules. The Heists have nabbed the technology or at least former American March Jake Coote as advisor teammate to Elmach's own answers.
