is voluntary we cooperate with corporate surveillance because it promises us convenience and we submit to government surveillance because it promises us protection The result is a mass surveillance society of our own making But have we given up more than we've gained In Data and Goliath security expert Bruce Schneier offers another path one that values both security and privacy He brings his bestseller up to date with a new preface covering the latest developments and then shows us exactly what we can do to reform government surveillance programs shake up surveillance based business models and protect our individual privacy You'll never look at your phone your computer your credit cards or even your car in the same way again
