High Performance Computing: Technology, Methods and Applications J.J. Dongarra, L. Grandinetti, J. Kowalik, G.R. Joubert, 1995-09-13 High Performance Computing is an integrated computing environment for solving large scale computational demanding problems in science engineering and business Newly emerging areas of HPC applications include medical sciences transportation financial operations and advanced human computer interface such as virtual reality High performance computing includes computer hardware software algorithms programming tools and environments plus visualization The book addresses several of these key components of high performance technology and contains descriptions of the state of the art computer architectures programming and software tools and innovative applications of parallel computers In addition the book includes papers on heterogeneous network based computing systems and scalability of parallel systems The reader will find information and data relative to the two main thrusts of high performance computing the absolute computational performance and that of providing the most cost effective and affordable computing for science industry and business The book is recommended for technical as well as management oriented individuals Communal Functions of Social Comparison Zlatan Križan, Frederick X. Gibbons, 2014-03-21 The extent to which we see ourselves as similar or different from others in our lives plays a key role in getting along and participating in social life This volume identifies research relevant to such communal functions of social comparisons and summarizes and organizes this research within a single coherent conceptual framework The volume provides an important addition to current thinking about social comparison which has often neglected communal and affiliative functions Whereas human desire to compare with others has traditionally been viewed as motivated by self centered needs such as self evaluation self enhancement and self improvement this book presents an eclectic cross section of research that illuminates connective cooperative and participatory functions of social comparisons In this vein the book aims both to expose research on currently neglected functions of social comparisons and to motivate a broader theoretical integration of social comparison processes **InfoWorld** ,1989-03-27 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **InfoWorld** ,1989-07-03 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects *InfoWorld* ,1990-04-16 InfoWorld is targeted to Senior IT professionals Content is segmented into Channels and Topic Centers InfoWorld also celebrates people companies and projects **Official Gazette of the United States Patent Office** United States.
