Uber College Football Review:

Cinderella's Slipper Mike Nemeth, 2009-09 The Bowl Champion Series BCS is under fire from fans the media college coaches Congress and even our new President They worry that the two best teams in the country aren't consistently selected by the polls and the BCS computers to play for the National Championship At stake is prestige a place in history recruiting advantages and boatloads of cash The solution proposed most often is a playoff system to give more schools a shot at a title However the problem of team selection won't go away with a playoff system it will be exacerbated The lack of a credible ranking system is the Achilles heel of the current BCS system Cinderella's Slipper reveals why the polls get it wrong why the BCS computers can't be expected to get it right why traditional statistics aren't useful for ranking teams and why won't lost records are misleading Cinderella's Slipper introduces the performance metrics necessary for team ranking and explains the rating system that can accurately rank teams with similar records When combined with NCAA sponsorship and an accurate ranking system a playoff scheme will produce deserving champions and will restore public confidence in the college football National Championship process

Revolution of the Modern Sports Fan Andrew C. Billings, Kenon A. Brown, Melvin Lewis, 2021-08-18 Revolution of the Modern Sports Fan explores the elements of the sports fan that have markedly changed in the past few years Inherent within these investigations is the role of communication in a multitude of forms mediated relational etc as the prototypical sports fan has most heavily shifted within this domain From the advent of social media to the rise of fantasy sport to the increased media platforms in which to consume sport the sports fan has never had more options for consumption and for the rendering of one's opinions As such Revolution of the Modern Sports Fan offers an opportunity to advance what we now know about American sports fandom as well as the ability to debunk what scholars thought they knew about sports fandom that has now shifted

Saturday Review, 1876 Leading With Values Neil Malhotra, Ken Shotts, 2022-02-17 As societies become more polarized there is increasing pressure for business leaders to have a sense of purpose and to make moral decisions Being a good leader requires both a keen understanding of the realities of human decision making as well as an analysis of what is right and wrong This book integrates lessons from three intellectual traditions psychology philosophy and political economy to guide readers on a journey to rigorously explore their values and decision making The authors begin by examining people's intuitions about right and wrong They then clarify

principles that embody these intuitions and help readers engage with others whose intuitions or principles differ from their own Ultimately this book teaches readers how to be strategic as they lead with their values as individuals as designers of organizations and as businesspeople interacting with societal institutions
