Science And Morality New Directions In Bioethics:

Science and Morality Doris Teichler-Zallen, Colleen D. Clements, 1982 *Grundlagen der Wissenschaftsforschung*
Günter Kröber, 2022-02-07 Keine ausführliche Beschreibung für Grundlagen der Wissenschaftsforschung verfügbar

Science and Morality Doris Teichler-Zallen, Colleen D. Clements, 1982 *A Call to Fidelity* James J. Walter, Timothy E. O'Connell, Thomas A. Shannon, 2002-10-17 A Call to Fidelity seeks to thoughtfully examine and critically evaluate the contributions that Charles E Curran has made to the field of Catholic moral theology over the past forty years It also seeks to assess the development of specific topics in contemporary moral theology to which Curran has made his unique mark particularly in fundamental ethics sexual and medical ethics social and political ethics and topics related to dialogue with other traditions and approaches to Catholic ethics Reviewing the many years of his influential writings thought and scholarship fourteen distinguished scholars examine his contributions and the current state of the topics under discussion which are as far ranging as academic freedom birth control gay and lesbian relationships and feminism Each contributor also provides a critical evaluation of Curran's work and outlines how these areas will hold or undergo transformation as the church looks toward its relationship with society and culture in the coming decades **On the Dual Uses of Science and Ethics** Michael J. Selgelid, Brian Rappert, 2013-12-19 Claims about the transformations enabled by modern science and medicine have been accompanied by an unsettling question in recent years might the knowledge being produced undermine rather than further human and animal well being On the Dual Uses of Science and Ethics examines the potential for the skills know how information and techniques associated with modern biology to serve contrasting ends In recognition of the moral ambiguity of science and technology each chapter considers steps that might be undertaken to prevent the deliberate spread of disease Central to achieving this aim is the consideration of what role ethics might serve To date the ethical analysis of the themes of this volume has been limited This book remedies this situation by bringing together contributors from a broad range of backgrounds to address a highly important ethical issue confronting humanity during the 21st century **Social Science Perspectives on Medical Ethics** G. Weisz, 2012-12-06 Medical or bio ethics has in recent years been a growth industry Journals Centers and Associations devoted to the subject proliferate Medical schools seem increasingly to be filling rare positions in the humanities and social sciences with ethicists Hardly a day passes without some media scrutiny of one or another ethical dilemma resulting from our new found ability to transform the natural conditions of life Although bioethics is a self consciously interdisciplinary field it has not attracted the collaboration of many social scientists In fact social scientists who specialize in the study of medicine have in many cases watched its development with a certain ambivalence No one disputes the significance and often the painfulness of the issues and choices being addressed But there is something about the way these issues are usually handled which seems somehow inappropriate if not wrong headed to one trained in a discipline like sociology or history In their analyses of complex situations ethicists often appear grandly oblivious to the social

and cultural context in which these occur and indeed to empirical referents of any sort Nor do they seem very conscious of the cultural specificity of many of the values and procedures they utilize when making ethical judgments The unease felt by many in the social sciences was given articulate expression in a paper by Renee Fox and Judith Swazey which appeared in 1984

Theologische Realenzyklopädie Gerhard Müller, 1977

Dying, Death, and Grief Michael A. Simpson, 1987

Listing of over 1700 books published mostly since 1979 Most entries are annotated Main section is arranged alphabetically by titles separate sections cover murder terrorism and political uses of death and nuclear holocaust and megadeath Entries are rated with one to five asterisks Author subject categories indexes

Before Their Time Libby G. Cohen, 1990

Ce document offre certains éléments de discussion sur le dilemme qui merge de l'aspect éthique de l'intervention et la pratique médicale lorsque l'enfant qui va naître ou est né rencontre des difficultés Les questions soulevées par ce document portent aussi sur les traitements et la nouvelle technologie de traitements associés la survie artificiellement contrôlée par des instruments et du personnel hyper spécialisés

A Sourcebook for Research in Law and Medicine Salvatore Francis Fiscina, 1985

Intended for professionals in both law and medicine Classified arrangement covering problems analysis and research design medicolegal information sources medicolegal references law primer cases in law and medicine and medicolegal consultants Entries give appropriate bibliographical identifying or descriptive information No index

Death, Sin, and the Moral Life Bonnie J. Miller-McLemore, 1988

Modern psychologies of death make religious and ethical as well as scientific judgments that inform our attitudes toward death and illness Bonnie Miller-McLemore uncovers and critiques the assumptions moral and otherwise behind the contemporary death and dying movement She retrieves the contributions of Augustine Calvin Schleiermacher Niebuhr Tillich and Ramsey in formulating a theologically more adequate understanding of death and illness

Pharming Eckard Reh binder, Margret Engelhard, Kristin Hagen, R. B. Jørgensen, Rafael Pardo Avellaneda, Angelika Schnieke, Felix Thiele, 2008-09-27

Recent scientific advances have made it possible to produce biopharmaceuticals in genetically modified plants and animals such as maize tobacco goats and chickens This new branch of biotechnology is termed pharming composed of the terms pharmaceuticals and farming Pharming constitutes an overlap of red and green biotechnology It offers the prospect of a quicker cheaper and more flexible production of biopharmaceuticals compared with current production processes This is a promising perspective in light of the rapidly growing market of biopharmaceuticals although the economic competitiveness of pharming remains to be proven Besides possible benefits for producers patients and health care systems pharming also raises a number of complex ecological social moral and legal questions that have as yet not been thoroughly discussed The present book contains the findings of an interdisciplinary research project that has addressed a large range of questions associated with pharming An analysis of the state of the art of plant pharming and animal pharming technologies is followed by an assessment of environmental risks related to pharming and welfare risks for pharming animals Public views and attitudes to pharming are investigated on the basis of a comprehensive survey in 15

countries Moreover ethical and legal questions posed by present and foreseeable future practices of pharming are analysed The concluding chapter presents the authors main findings and recommendations addressed to science industry politics and general public interested in the chances and risks of this upcoming field of biotechnology **Reproductive Rights** Joan Nordquist,1988 Index of Conference Proceedings Received British Library. Lending Division,1982-07 Encyclopedia of Legal Information Sources Brian L. Baker,Patrick J. Petit,1993 Over 19 000 live print and electronic information sources for 460 legal topics are quickly accessible in this guide to the US legal system The work is arranged alphabetically by subject from actions and defences to noteworthy trials and users can see at a glance what printed materials are available what organizations are active in that subject and whether any databases or other electronic information sources are available

Subject Catalog Library of Congress,1982 **International Digest of Health Legislation** ,1982 **Future Survey Annual 1983** Michael Marien,1984-01-01 *Introduction to Biotechnology Information* British Library. Biotechnology Information Service,1991 **Public Administration Review** Leonard Dupee White,1985 Includes section Reviews of books and documents
