Peace & Cooperation in ASEAN Kim Hourn Kao, Din Merican, 1997 **Prospects for Peace and Cooperation in the Asian-Pacific Region**, 1986 SCOTT copy 1 from the John Holmes Library collection Japan's Peace-Building Diplomacy in Asia Peng Er Lam, 2009-06-02 This book examines Japan's foreign policy and its emerging identity as an important participant in conflict prevention and peacebuilding in Southeast and South Asia demonstrating that Japan has increasingly sought a positive and active political role commensurate with its economic pre-eminence **Asean as a Factor for Peace, Security, Stability and Cooperation in Southeast Asia** Mohamad Jawhar Hassan, 1991 **Asia Pacific Defense Forum**, 2014

Southeast Asia-North Korea Relations Chiew-Ping Hoo, Shine Choi, Brian Bridges, 2024-09-18 Southeast Asia North Korea Relations reveals the genesis and evolution of Southeast Asian countries' diplomatic relations with the Democratic People's Republic of Korea (DPRK) North Korea by unpacking the underlying political, economic and security connections. In this book, chapters analyse in detail the individual bilateral linkages of the ten states of the Association of Southeast Asian Nations (ASEAN) with the DPRK that vary in intensity and visibility. Bringing together an international group of experts including uniquely authors representing every individual ASEAN state, this edited volume dissects the parameters of the bilateral relationships as well as the multi-faceted regional level interactions and the roles of certain key external actors especially South Korea and China. This book is a path-breaking addition to the study and analysis of regional inter-linkages in Asia and will be of interest to students and scholars working on North Korean studies, Southeast Asia including ASEAN and also on Korean Peninsula topics as well as international relations and security studies especially considering the role of small states.

Peace Operations Donald C. F. Daniel, Patricia Taft, Sharon Wiharta, 2008-07-30 Trends in the number and scope of peace operations since 2000 evidence heightened international appreciation for their value in crisis response and regional stabilization. *Peace Operations: Trends, Progress and Prospects* addresses national and institutional capacities to undertake such operations by going beyond what is available in previously published literature. Part one focuses on developments across regions and countries. It builds on data gathering projects undertaken at Georgetown University's Center for Peace and Security Studies (CPASS), the Stockholm International Peace Research Institute (SIPRI) and the Folke Bernadotte Academy (FBA) that offer new information about national contributions to operations and about the organizations through which they make those contributions. The information provides the bases for arriving at unique insights about the characteristics of contributors and about the division of labor between the United Nations and other international entities. Part two looks to trends and prospects within regions and nations. Unlike other studies that focus only on regions with well-established track records specifically Europe and Africa, this book also looks to the other major areas of the world and poses two questions concerning them: If little or nothing has been done institutionally in a region, why not? What should be expected? This groundbreaking volume will help policymakers and academics understand better the regional and national factors shaping

the prospects for peace operations into the next decade *Routledge Handbook of the South China Sea* Zou Keyuan, 2021-06-28 The Routledge Handbook of the South China Sea presents a comprehensive and in depth analysis of South China Sea issues It evaluates the dynamics of the latest developments and identifies factors that contribute to dispute settlement and a cooperative management regime of one of the most important seas in the world one which not only contains rich marine resources and distinctive biodiversity but is also a critical sea route for global trade and communications The Handbook is divided into six parts each representing a focused area of enquiry History and geostrategic landscape Sovereignty and maritime entitlements South China Sea policies of major claimants Natural resources and environment Cooperation and institutions Challenges and prospects Written by world renowned experts and scholars with specialisms from geography to international law the volume s 25 chapters contribute interdisciplinary perspectives reflecting the impact of how South China Sea policies are shaped by national governments and international organizations As such the Handbook provides an authoritative reference to South China Sea Studies useful for students and scholars of international relations history maritime and Asian studies *Regional Cooperation for Peace and Development* Brendan Howe, 2018-11-09 Faced with significant security challenges in recent years Japan and South Korea have both sought to raise their international profile through peacebuilding development humanitarian assistance and human security This book assesses the past present and future potential of these niche diplomacy initiatives undertaken by Japan and South Korea largely in Southeast Asia The book concludes that not only do such nontraditional security channels have the potential to achieve meaningful change for partners and beneficiaries but they could also form the basis of future confidence building and security cooperation between Japan and South Korea which have to date achieved little in the field of traditional security cooperation despite facing many shared challenges Working across disciplines and national boundaries the contributors to this volume argue that policy prioritization in the fields of peacebuilding development and human security by Tokyo and Seoul could have the potential to accrue wider benefits not only to the Northeast Asian actors and the Southeast Asian partners but also to wider regional and even global security communities At a time when the role of so called middle powers is receiving increasing levels of attention both domestically and internationally this book will be of considerable interest to scholars of Japan and the ROK as well as development security and foreign policy researchers more broadly *The Asian Way to Peace* Michael Haas, 1989-11-20 While Europe has traditionally been the role model for international cooperation this volume suggests a new highly successful mode Using a flourishing operational code of diplomacy known as the Asian Way Asian regional cooperation has gone even further to unite disparate countries for economic and political objectives Culminating twenty years of research this volume defines the Asian Way It then provides details on fifty regional organizations in an effort to study this spirit of regional cooperation Highlighting the Association of South East Asian Nations ASEAN the author concludes that Asian international relations has been ASEANized and increased economic progress has been advanced in two

decades through the application of the Asian Way Examining in microcosm how nations conduct their foreign relations in Asia this volume provides an extensive list of regional organizations It details their organizational charts provides membership lists and reveals funding formulas and projects undertaken The author explains how through the application of the principles of the Asian Way the countries of Southeast Asia have resolved their conflicts harmonized foreign policies begun projects of regional economic cooperation and ultimately advanced prosperity **ASEAN Documents Series** ASEAN.,2006 **Sustaining Peace In Asean And The Asia-Pacific: Preventive Diplomacy Measures** Yanjun Guo,I Gusti Agung Wesaka Puja,2022-07-28 In 2016 the United Nations UN General Assembly and the UN Security Council respectively adopted resolutions on the review of the UN peacebuilding architecture and the concept of sustaining peace was formally presented Since then the sustaining peace agenda has gradually become the core strategy of the peace cause of the UN The agenda for sustaining peace emphasizes capacity building for conflict prevention at the regional level Faced with the escalation of the international security challenge regional organizations are increasingly playing a prominent role They have become important participants in the international peace and security agenda by enhancing cooperation with the UN The Association of Southeast Asian Nations ASEAN as the centre of regional cooperation processes in the Asia Pacific established a series of norms and instruments related to conflict prevention This book intends to promote discussions on linking conflict prevention and or preventive diplomacy activities in the region with the sustaining peace agenda promoted by both the ASEAN on a regional scale and the UN on a global scale In a collaboration between the ASEAN Institute for Peace and Reconciliation ASEAN IPR and China Foreign Affairs University CFAU the book provides discussions from the perspective of both Chinese as well as ASEAN scholars on traditional as well as emerging topics on sustaining peace as well as conflict prevention conflict management and conflict resolution **Achieving Sustaining Peace Through Preventive Diplomacy** Yanjun Guo,Zhili Han,2021-11-29 Preventive diplomacy constitutes an important part of international conflict resolution mechanisms The countries in the Asia Pacific region have the political will to use preventive diplomacy to address the needs for sustaining peace and security The challenge is to find approaches compatible with the consensual norms and operational for tackling conflicts in the regional context Structured on this thematic challenge this book aims to present new approaches and practices of preventative diplomacy inspired by diplomatic innovation of Asia Pacific countries and around the world such as adaptive peace approach continental approach dominant coalition and new leadership in peacebuilding etc and takes account recent literature on normative issues relating to preventative diplomacy such as international rule of law normative entanglements and evolution the international impartial and independent mechanism the evolution of the norm against child soldiers the implementation of the woman peace and security agenda and the role of Jus Post Bellum in the UN peace operations It also examines how geopolitical competition and the recent covid 19 crisis impact the security of the region and explores the connection between the Belt and Road Initiative and sustaining peace of the region This book is a valuable
