A Peaceful and Working People William E. French,1996 The mining boom that began in northern Mexico in the 1890s set in motion fundamental social change On the one hand it uprooted many workers and the concerns of government officials middle class reformers and company managers coalesced into laws and programs to control the restless masses But changes in the mining economy and political culture also precipitated class consciousness among merchants and artisans as well as skilled and unskilled workers This study of the Hidalgo mining district in Chihuahua from the 1890s to the 1920s examines class formation in particular its relation to social control popular values and pre industrial traditions In arguing that class identity stemmed less from the nature of one s work than from the beliefs one held this work brings together the disparate themes of moral economy of mine workers new mining technology and the management policy of mine owners during the Mexican Revolution Provided by publisher *The Oxford Handbook of Latin American History* Jose C. Working Women into the Borderlands author Sonia Hernández sheds light on how women's labor was shaped by US capital in the northeast region of Mexico and how women's labor activism simultaneously shaped the nature of foreign investment and relations between Mexicans and Americans. As capital investments fueled the growth of heavy industries in cities and ports such as Monterrey and Tampico, women's work complemented and strengthened their male counterparts' labor in industries which were historically male dominated. As Hernández reveals, women laborers were expected to maintain their proper place in society and work environments were in fact gendered and class based. Yet these prescribed notions of class and gender were frequently challenged as women sought to improve their livelihoods by using everyday forms of negotiation including collective organizing, labor arbitration, boards, letter writing, creating unions, assuming positions of *confianza* (trustworthiness) and by migrating to urban centers and/or crossing into Texas. Drawing extensively on bi-national archival sources, newspapers and published records, *Working Women into the Borderlands* demonstrates convincingly how women's labor contributions shaped the development of one of the most dynamic and contentious borderlands in the globe.

**Everyday Life and Politics in Nineteenth Century Mexico** Mark Wasserman, 2000. In this new and masterful synthesis, Wasserman shows the link between ordinary men and women preoccupied with the demands of feeding, clothing and providing shelter, and the elites' desire for a stable political order and an expanding economy. The three key figures of nineteenth century Mexico, Antonio López de Santa Ana, Benito Juárez and Porfirio Díaz, are engagingly reinterpreted. But the emphasis in this book is on the struggle of the common people to retain control over their everyday lives. Concerns central to village life were the appointment of police officials, imposition of taxes on Indians, the trustworthiness of local priests and changes in land ownership. Communities often followed their leaders into one political camp or another and even into war out of loyalty. Excesses in partisan politics and regional antagonisms gave rise to nearly eighty years of war, resulting in the nation's economic stagnation between 1821 and 1880 and the mass migration of women from the countryside to the city. The industrialization of urban employment forever altered gender relations. During wartime, women acted as the supply, transportation and medical corps of the Mexican armies. Moreover, with greater frequency than has been known, women fought as soldiers in the nineteenth century. This account of Mexico from Independence to the Revolution combines lively explanations of social history, political and economic change and gender relations. Publisher: *Daily Lives of Civilians in Wartime Latin America*. Pedro Santoni, 2008-09-30. Describes the day to day experiences of civilians living in Latin America over the periods of turmoil during the nineteenth and twentieth centuries and focuses on the challenges and sacrifices that men, women and children made in those times of war. *Bibliographie internationale des recensions de la littérature savante*, 1974.

**The Human Tradition in Mexico** Jeffrey M. Pilcher, 2003. Table of contents. *Journal of the West*. Lorrin L. Morrison, Carroll Spear Morrison, 1998.
