side canyons Glen Canyon and the river that ran through it had changed her life Her descriptions of a magnificent desert oasis and its rich archaeological ruins are a paean to paradise lost In 1963 the US Government s Bureau of Reclamation the Wreck the Nation Bureau Katie calls it shut off the flow of the Colorado River at Glen Canyon Dam beginning the process of flooding this natural treasure Three generations have been born since the dam was built and in a few more decades there may be no one alive who will have known the place Katie Lee didn t forget Glen Canyon and she didn t want anyone else to forget it either She tells us what there was to love about Glen Canyon and why we should miss it The canyon had great personal significance for her She had gone to Hollywood to make her career as an actress and a singer but the river kept calling her back showing her a better way to live She eloquently weaves her personal story into her breathtaking descriptions of the trips she made down the canyon In later years Katie found allies in her struggle to restore the canyon The Glen Canyon Institute has been joined by the Sierra Club in calling for the draining of Lake Powell Rez Foul in Katie s words and the idea is being debated on editorial pages across the country and in congressional hearings All My Rivers Are Gone celebrates a great American landscape mourns its loss and challenges us to undo the damage and forever prevent such mindless destruction in the future

**Lake Powell** Mark A. Schlenz, 1994-05-01 Lake Powell s sapphire waters sparkle amid canyons of red rock its myriad patterns of water and stone made vibrant by hard desert light In Lake Powell A Photographic Essay of Glen Canyon National Recreation Area photographer Gary Ladd explores the area s beauty including the lake s ninety six trickling side canyons Interpretive text by Southwest writer Anne Markward details the history of the area Glen Canyon Dam s completion in 1963 and the environmental challenges Lake Powell continues to present

*Grand Canyon* Robert H. Webb, 1996-05 Photographs made in Grand Canyon a century ago may provide us with a sense of history photographs made today from the same vantage points give us a more precise picture of change in this seemingly timeless place Between 1889 and 1890 Robert Brewster Stanton made photographs every one to two miles through the river corridor for the purpose of planning a water level railroad route he produced the largest collection of photographs of the Colorado River at one point in time Robert Webb a USGS hydrologist conducting research on debris flows in the Canyon obtained the photographs and from 1989 to 1995 he replicated all 445 of the views captured by Stanton matching as closely as possible the original camera positions and lighting conditions Grand Canyon a Century of Change assembles the most dramatic of these paired photographs to demonstrate both the persistence of nature and the presence of humanity The level of detail obtained from the photographs represent one of the most extensive long term monitoring efforts ever conducted in a national park and the most detailed documentation effort ever performed using repeat photography Much more than simply a picture book Grand Canyon a Century of Change is an environmental history of the river corridor a fascinating book that clearly shows the impact of human influence on Grand Canyon and warns us that the Canyon s future is very much in our hands

The Grand Canyon:

Between River and Rim Pete McBride, 2018-09-25 This is a once in a lifetime experience an end to end rim to river exploration of the Grand Canyon The authors have debuted a film Into the Canyon in February of 2019 that explores their hike through the canyon Award winning photographer Pete McBride along with best selling authors Kevin Fedarko and Hampton Sides takes us on a gripping adventure story told through stunning never before seen photography and powerful essays By hiking the entire 750 miles of Grand Canyon National Park from the Colorado River to the canyon rim McBride captures the majesty of as well as calling us to protect America's open aired cathedral The 2019 Public Lands Alliance Partnership Book of the Year this is the most spectacular collection of Grand Canyon imagery ever seen showing beauty from vantages where no other photographers have ever stood It will also highlight the conservation challenges this iconic national park faces as visitation numbers grow and development pressures surrounding it mount This photography will inspire and remind us why we protect such a cherished public space Proceeds benefit the Grand Canyon Conservancy and the accompanying documentary Into the Canyon has been shown at the Flagstaff Mountain Film Festival and the Aspen Film Festival in February of 2019 as well as debuting on the National Geographic Channel all in time for the national park's centennial

**The Grand Canyon: Unseen Beauty** Thomas Blagden Jr., 2019-05-07 The majesty of the Grand Canyon is celebrated from the Colorado River as it continues to carve America's natural wonder from a mile below the rim As one of the Wonders of the World and the most iconic national park in America the Grand Canyon entralls six million visitors each year Only a small fraction of those people however have the privilege of experiencing the canyon by rafting down the Colorado River The Grand Canyon captures and evokes the power of that journey from the drama of the rapids and the immeasurable scale of the canyon walls to the subtle rock patterns and varied life forms What started as an exceptional opportunity for Tom Blagden to raft through The Canyon in 2006 with Rod Nash at the oars has evolved into a passionate photographic pursuit that still continues The route the River is the same every time but the experience constantly variable and deeply profound Rafters never tire of it and if anything feel more in awe of the Canyon's magnificence with each trip Tom Blagden's images and Rod Nash's essay reveal the canyon from a different perspective portraying what it's like to be on the river and immersed a mile deep surrounded by rock almost half the age of the earth On the centennial of Grand Canyon National Park it seems only fitting that we journey together to this unique place through the pages of this astonishing book The book weaves a wondrous adventure that will bring readers along on a journey while raising questions about the significance of a national park and an iconic American river and how to sustain them for generations to follow
