Peaceful Realm The Rise And Fall Of The Indus Civilization:

A Peaceful Realm Jane McIntosh, 2002 Some 5000 years ago civilized societies emerged in the valleys of four great rivers the Nile the Euphrates the Yellow and the Indus Of these primary Old World civilizations that of the Indus remains the least known and the most enigmatic though paradoxically it has left perhaps the most lasting influence on the societies that followed it In this lucid account abundantly illustrated with maps and photographs including sixteen pages in full color archaeologist Jane McIntosh addresses what we know about the rise and fall of the civilization of the Indus and Saraswati valleys what it might be reasonable to speculate and what we still hope to learn While drawing on archaeological and linguistic evidence to create a portrait of the civilization from the inside McIntosh also carefully pieces together a wider picture of the Indus civilization using evidence from its trading partners in Mesopotamia the Persian Gulf the Indian subcontinent and Southwest Asia The result is an outstandingly vivid recreation of one of the world's great but all but lost ancient civilizations

World Peace Alex J. Bellamy, 2019-09-12 For as long as there has been war there have been demands for its elimination The quest for world peace has excited and eluded political leaders philosophers religious elders activists and artists for millennia With war on the rise once again we rarely reflect on what world peace might look like much less on how it might be achieved World Peace aims to change all that and show that world peace is possible Because the motives rationales and impulses that give rise to war the quest for survival enrichment solidarity and glory are now better satisfied through peaceful means war is an increasingly anachronistic practice more likely to impoverish and harm us humans than satisfy and protect us This book shows that we already have many of the institutions and practices needed to make peace possible and sets out an agenda for building world peace In the immediate term it shows how steps to strengthen compliance with international law improve collective action such as international peacekeeping and peacebuilding better regulate the flow of arms and hold individuals legally accountable for acts of aggression or atrocity crimes can make our world more peaceful It also shows how in the long term building strong and legitimate states that protect the rights and secure the livelihoods of their people gender equal societies and protecting the right of individuals to opt out of wars has the potential to establish and sustain world peace But it will only happen if individuals organize to make it happen
