The Publisher **The Publishers Weekly** ,1994 *Index to Handicraft Books, 1974-1984* Carnegie Library of Pittsburgh. Science and Technology Department,1986

Handicrafts and do it yourself projects have al ways been a library s most popular and heavily re quested subject And for more than a decade a definitive index to handicraft books has not been published To fill this gap the Science and Tech nology Department at Carnegie Library of Pitts burgh has compiled the Index to Handicraft Books listing more than 900 books and over 12 400 sub ject entries covering books published from 1974 to 1984

The Index to Handicraft Books is an essential ref erence tool for librarians who want to help some one find instructions for a varied range of do it yourself projects providing quick access to craft projects in books more recent than previous handi craft index books have listed

Each entry in the in dex consists of a subject heading the name of the project as listed in the book the author and title of the book and the page numbers on which the project can be found

The author and title cor respond to those in the List of Works Cited sec tion which gives full bibliographic information in order to help librarians find the book on their shelves or obtain the book through inter library loan

Because this index developed from a card file index of craft books acquired by Carnegie Library since 1974 the list concentrates mainly on medium priced books that most libraries buy **Material Culture and Sacred Landscape** Peter Jordan,2003-03-12

This study provides a concrete example of how foraging societies enculturate and transform the natural environment and through the use of material objects create sacred spaces and sites

Using ethnographic and ethnohistorical information about the Khanty of Siberia Jordan shows the shortcomings of both interpretive and materialist anthropological theorizing about hunters and gatherers

He focuses on the rich and complex relationship between the symbolism of the Khanty their material culture and the bringing of meaning to physical places

His examination looks at the topic in both historical and contemporary contexts and in scales from the core periphery model of Russian colonialism to the portrait of a single yurt community

Jordan s work will be of importance to those studying cultural
