Pediatric Screening Tests:

Pediatric Screening Tests William K. Frankenburg, Bonnie W. Camp, 1975 **Oski's Pediatrics** Julia A. McMillan, Ralph D. Feigin, Catherine DeAngelis, M. Douglas Jones, 2006 A comprehensive guide to the current practice of pediatric care this updated edition includes new chapters on complementary and alternative medicine genetics in primary care and updated chapters regarding infant and child behavior and development **Early Identification of Children at Risk** R.N. Emde, W.K. Frankenburg, J. Sullivan, 2013-12-01 This volume contains contributions that are interdisciplinary and international The editors believe this is an especially timely and promising enterprise for both sources of diversity are needed for improving our abilities to identify the young child at risk and to prevent disability In terms of disciplines the volume brings together papers by health care providers such as pediatricians and public health nurses as well as educators and psychologists Each of these groups works in dissimilar settings and faces dissimilar problems Health care providers seek simple identification procedures for use in busy primary care settings psychologists emphasize well constructed research designs and educators reflect the need for early identification and education Each of these specialist groups has something to offer the other but too often each tends to limit its publications and readings to its own discipline thus failing to capitalize on a wider scope of knowledge and practice We hope that this selection of papers will allow all readers addressing the early identification of children at risk to generate a more integrated interdisciplinary perspective We also hope this volume reflects the sense of excitement that we feel from a sharing of international perspectives There is no single approach to the early identification of children at risk that is universally applicable to all countries In addition approaches within each country vary because of availability of financial and human resources and differing expectations of local communities
