The Peking Man is Missing Claire Taschdjian, 1977 Aan het begin van de Tweede Wereldoorlog verdwijnen tijdens het vervoer van Peking naar de Verenigde Staten op mysterieuze wijze de overblijfselen van s werelds eerste mens The Peking Man is Missing Claire Taschdjian, 1977 Crossing the Threshold of Confusion Andrew J. McCauley, 2010-08 Despite all the hoopla about Pope John Paul II some believe he has been an unparalleled disaster in the history of the papacy and of the Church In Crossing the Threshold of Confusion author Andrew J McCauley examines the record of this pope and discusses the harm he has done or has allowed to have happened not only to the Church but to Western civilization McCauley uncovers countless faults many Catholic leaders have overlooked including Pope John Paul II s failure to enforce discipline in the Church especially against widespread sexual abuse by priests his statements alleging and implying universal salvation the destabilization of marriage caused by his theology of the body the conflicting messages that confuse the Church s position on capital punishment his stance on the nature of the Church as a result of Vatican II This exploration of recent Catholic history studies the ideas writings and policies of Pope John Paul II from his life a young priest to his final days as pope and examines their compatibility with traditional Catholic doctrine and practice Crossing the Threshold of Confusion presents a case against the canonization of Pope John Paul II and demonstrates how his record warrants condemnation

The Truth Please! Edward Cross, 2012-03 The things I ve written about in this book reflect my approach to life that approach is common sense The scientific laws Ive written about are proven facts of science that can be found elaborated on in numerous sources and the Bible verses are I ve quoted are right out of the King James Version Bible Whether looking at science the Bible or how to build a house I want to know what makes sense Certainly all answers to life are not simple but there is no reason to accept complicated nonsense for an answer if by common sense the question can be reasoned and answered I was nominated for an appointment to West Point during my junior year in high school but because of some heart changing decisions I made just before and during my senior year I chose to go to Bible college instead I have served the Lord as a laymen in the church all of my adult life and worked in the secular world mostly in the construction industry as a contractor I have had a passion about the creation vs evolution subject since my teens and have read and studied everything I ve gotten in my possession whether pro creation or pro evolution I have listened diligently when the subject was being taught and have watched numerous evolution programs on educational and documentary television programs Everything I read heard or saw on the subject caused me to do deeper studies When all is said and done and all hoaxes errors contradictions and impossibilities are eliminated what is still left standing and makes common sense is creation I hope this book will give some Christians the ammunition to withstand Atheistic confrontations and that it may also win some nonbelievers over to understand that there really is a Creator God **The People's Peking Man** Sigrid Schmalzer, 2004

The Story of Peking Man Lanpo Jia, Weiwen Huang, 1990 Once a forlorn village fifty kilometers south of Beijing

Zhoukoudian formerly Choukoutien is today a virtual shrine to archaeology a bustling community with its own highway extension a major exhibit hall which attracts hundreds of thousands of tourists annually and one of the world's most famous fossil sites Still active today this site in seven decades has contributed immeasurably to our knowledge of prehistoric life It boasts one of the richest fossil deposits found anywhere ranging from the Early Pliocene to the Late Pleistocene a span of three million years It has provided some of the earliest evidence of fire usage ever uncovered And most important it is the home of Peking Man whose discovery ranks as one of the great events in modern archaeology Now in *The Story of Peking Man* one of China's foremost archaeologists Jia Lanpo offers a profusely illustrated history of Zhoukoudian tracing its earliest discoveries and greatest moments recounting the tragic events of World War II Japanese soldiers murdered three archaeologists and the Peking Man fossils vanished under mysterious circumstances and evaluating its overall importance Lanpo spent over half a century at Zhoukoudian and he provides many fascinating first hand accounts of scientists at work including such figures as Davidson Black Pierre Teilhard de Chardin Yang Zhongjian Pei Wenzhong and of course Lanpo himself He describes how the abundance of dragon bones fossils sold in herbal medicine shops in Zhoukoudian first attracted Johan Gunnar Andersson who began excavations there in 1918 the first major discovery a human skullcap found by Pei Wenzhong while digging by candlelight in a tiny cave and Jia Lanpo's own discovery of a beautifully preserved skullcap in 1936 He vividly conveys the great excitement of an important find as well as the pressure to make major discoveries as funding runs low And he reviews many of the theories and controversies surrounding Peking Man Were they cannibals Did they use bones as tools Did humanity originate in Asia or Africa Based on numerous unpublished sources including field reports personal letters and photographs and Lanpo's own remembrances *The Story of Peking Man* provides an inside look at a major archaeological site one that will fascinate anyone interested in the origins of humanity

Lines of Evidence: How Recent Science Infers the Existence of God Rick Jory, 2023-08-18 Secular science demands we accept the philosophical dogma of scientific materialism that only material entities exist Yet recent science has discovered the immaterial Also mandated is the assumption that all things must be explained by natural causes But we now are certain that the universe had a beginning There was a time when nature didn't exist and yet we must attribute the origin of the universe to nature And what about Darwin's theory of evolution taken as fact that every plant and animal owe its origin to a common ancestor and naturalistic causes At the time of Darwin over a century and a half ago no one knew the true complexity of the cell We now know the simplest of living organisms has 159 662 base pairs of DNA and 182 protein coding genes What naturalistic cause put all of this together Could this be assembled by blind purposeless accident What does recent science have to say And what about recent discoveries in origin of life research Do we now know enough to suggest life could not have created itself A lot is happening in today's science that is best explained through the Christian worldview Let's see what some of today's scientists are now saying

The Greatest Show on Earth Richard Dawkins, 2009-09-22 In 2008 a Gallup poll showed that 44 percent of Americans believed God had created man in his present form within the last 10 000 years In a Pew Forum poll in the same year 42 percent believed that all life on earth has existed in its present form since the beginning of time In 1859 Charles Darwin's masterpiece *On the Origin of Species* shook society to its core Darwin was only too aware of the storm his theory of evolution would provoke But he surely would have raised an incredulous eyebrow at the controversy still raging a century and a half later Evolution is accepted as scientific fact by all reputable scientists and indeed theologians yet millions of people continue to question its veracity Now the author of the iconic work *The God Delusion* takes them to task *The Greatest Show on Earth* is a stunning counterattack on advocates of Intelligent Design explaining the evidence for evolution while exposing the absurdities of the creationist argument Dawkins sifts through rich layers of scientific evidence from living examples of natural selection to clues in the fossil record from natural clocks that mark the vast epochs wherein evolution ran its course to the intricacies of developing embryos from plate tectonics to molecular genetics Combining these elements and many more he makes the airtight case that we find ourselves perched on one tiny twig in the midst of a blossoming and flourishing tree of life and it is no accident but the direct consequence of evolution by non random selection *The Greatest Show on Earth* comes at a critical time systematic opposition to the fact of evolution is menacing as never before In American schools and in schools around the world insidious attempts are made to undermine the status of science in the classroom Dawkins wields a devastating argument against this ignorance but his unjaded passion for the natural world turns what might have been a negative argument into a positive offering to the reader nothing less than a master's vision of life in all its splendor
