Pawned Sovereignty:

The Sovereign Psyche Ezra Aharon, 2016-04-30 The Sovereign Psyche is not just the title of the book More importantly The Sovereign Psyche is the motivating consciousness intellect and willpower that is necessary to materialize what the book defines as Self Authentic Freedom as opposed to Chattel Freedom Chattel freedom is when the value of a people is predicated upon the extent to which they serve the interests and institutions of others As such this work asserts that there is no such thing as intellectual or institutional equality and that Black African people have been unknowingly thrust into an intellectual and institutional war where second place finishers either experience varying degrees of chattel freedom or they could end up dead Regardless of the issue genuine solutions entail what we as Black African people intellectually and institutionally do for ourselves If Black Lives Matter we must channel the end uses of our intellect and the resources of our institutions to not only prove and enforce it but also leverage powers to penalize and or repudiate violators Although this work centers upon Black African people the sovereign functions and frameworks herein are universal in application being that today's world rotates upon systems of sovereignty and power not beliefs in democracy or equality In this context the sovereign concepts and criteria presented are far more rational than radical The central question is to what extent will Black African people harness the willpower and employ the intellect of The Sovereign Psyche to actualize our own systems and institutions of self authentic freedom government and development without apology or permission This work offers the ideological apparatus to make this possible just as others are doing all around the globe Sovereign Evolution Ezra Aharon, 2008 From emancipation to segregation to integration African Americans exist today by virtue of a continuum of political evolutions each of which is built upon prior legacies and achievements In advancing our political progression Sovereign Evolution re declares freedom and equality in 21st century terms using sovereign principles and standards Whether the issue concerns Katrina and Jena or being underrepresented in Congress and overrepresented in penitentiaries the common thread as Ezra Aharon demonstrates is that African Americans are an Un Sovereign People who pay varying degrees of Un Sovereign Consequences Thus in a very methodical manner he circumscribes sovereignty in a universal and historical context that confers African Americans with just as much integrity and authority as any other people to espouse and employ sovereign aspirations The ideological framework herein self applies and legitimizes the concept of sovereignty in ways that no other work has succinctly captured in politically relatable terms specific for African Americans Realizing that not all African Americans will embrace sovereign values Aharon uniquely specifies how a Sovereign Evolution can mutually advance the best interests of us all without conflict or compromise to core beliefs of anyone Accordingly the book sets a platform to infuse sovereign discourse into mainstream domains that reach from street corners of the hoods to Black universities to church congregations to the halls of Congress The advent of President Barack Obama indicates a necessary and long awaited political shift in time and history which also conveys veiled implications of our sovereign potentials as a

people Whatonce seemed politically improbable has proven to be politically achievable Our only political limitations exist within the limits of our vision and courage To this end Ezra Aharon factually sculpts the sociopolitical substance of our historical experience into a sovereign consciousness and political language to initiate a Manifest Destiny from Civil Rights to Sovereign Rights Hitler the Pawn Rudolf Olden,1936 **King's Pawn** George Harold Dunne,1990 The Radical Humanist Manabendra Nath Roy,2008 The Theory of the State Johann Kaspar Bluntschli,1885 Okinawa: Pawn in the Pacific James Hubert McBride,1972 The Queens of England and Their Times Francis Lancelott,1894 **Parliamentary Debates (Hansard)** New Zealand. Lovejoy,Toyin Falola,2003 Exploring the age old institution of African debt bondage in which people are held as collateral in lieu of debts that have been incurred these twenty essays look at the various effects of this practice on such issues as kinship gender and the international slave trade Continuing well into the 1930s because of the economic demands enforced by European colonial rule pawnship and slavery in the event of default on a loan has had a particularly detrimental effect on women and children demonstrating the links between credit servility and gender in large parts of Africa
