## Peace And War:

*Thinking about Peace and War* Martin Ceadel, 1987 In the first book to offer a coherent intellectual framework for the study of proposals for the prevention of war Ceadel disentangles three strategic dimensions of the nuclear issue the global balance between the U S and Russia the European crisis and the British position and analyzes the cases for and against nuclear deterrence **Studies in War and Peace** Michael Howard, 1972 **Peace, War, and Computers** Chris Hables

Gray, 2005 First Published in 2005 Routledge is an imprint of Taylor Francis an informa company *Does Peace Lead to War?* Matthew Hughes, Matthew S. Seligmann, 2002 Drawing on a series of pertinent case studies the authors provide a comprehensive and cohesive study that answers the question of why peace has so often failed in the modern era Peace, War and Gender from Antiquity to the Present Jost Dülffer, Robert Frank, 2009 *War and peace* graf Leo Tolstoy, 1899

*The Manifesto*, 1887 Global Challenges: Peace and War Yih-Jye Hwang, Lucie Cerna, 2013-07-04 What is the idea of peace Is peace merely the absence of war or can it also mean something else Is peace a condition of emancipation the status quo or is it a system of hegemonic stability How can peace be acquired whatever it may mean And above all what is the relationship between peace and war This textbook aims to offer a comprehensive and up to date introduction to studies of peace and war from both theoretical and empirical perspectives Rather than providing students the answer of what the idea of peace means this volume is designed to make and assist students to contemplate how peace can be thought by investigating its opposite war broadly defined War, Revolution, and Peace in Russia Frank Alfred Golder, 1992 His diary records the drama of the initial months of the Russian Revolution and introduces us to some of the major players on the political scene including principal figures in the Provisional Government such as Alexander Kerensky and Paul Miliukov On his third visit to Russia as a famine relief worker for the American Relief Administration ARA in 1921 Golder documented the fate of old regime intelligentsia During the second year of this two year stay Golder took on a new assignment as unofficial political observer for U S secretary of commerce Herbert Hoover His weekly letters to Hoover s office reveal the backdoor negotiations between Washington and Moscow on issues of trade and political recognition and their publication here fills a gap in U S Soviet diplomatic history On his later trips to Russia in 1925 and 1927 Golder recorded his observations of the changes in Soviet society after the death of Lenin **Our War Too** Margaret Paton-Walsh, 2002 In the late 1930s a number of American women especially those allied with various peace and isolationist groups protested against the nation s entry into World War II While their story is fairly well known Margaret Paton Walsh reveals a far less familiar story of women who fervently felt that American intervention was absolutely necessary Paton Walsh recounts how the United States became involved in the war but does so through the eyes of American women who faced it as a necessary evil Covering the period between 1935 and 1941 she examines how these women functioned as political actors even though they were excluded from positions of power through activism in women s organizations informal women s networks and even male dominated lobbying

groups In the Great Debate over whether America should enter the war some women favored aid to the Allies not because they hoped for war but because they hoped aid would forestall more direct U S involvement but also because they believed war was preferable to a Nazi victory Paton Walsh shows that this activism involved some of the most prominent women of their day Elizabeth Cutter Morrow whose son in law Charles Lindbergh was an isolationist spokesman supported the revision of the Neutrality Acts to allow the sale of arms to the Allies and expressed her support in a national radio broadcast Soon other women joined this debate Esther Brunauer of the AAUW journalist Dorothy Thompson and organizations like the League of Women Voters and National Women s Trade Union League broke from the pacifist tradition to advocate American aid for the Allied cause Focusing on the conflict in Europe Paton Walsh shows how these women grasped the implications of the Lend Lease program for America s entry into the war but supported it nevertheless By late 1941 the Women s Division of the Fight for Freedom Committee had been established no longer merely advocating aid to Britain to keep American boys out of battle this organization supported direct American involvement in the war as a means of stopping Nazi oppression While most historians have focused on women s pacifism Paton Walsh connects women more directly to world events and shows how those interventionists reformulated maternalist ideas to justify and explain their beliefs *Our War Too* is a story of American women trying to reconcile the irreconcilable to preserve both their principles and their peace It expands our understanding of women as political actors and thinkers about foreign policy as it sheds new light on American public opinion over the build up to the war

*Why War? Essays and Addresses on War and Peace* Nicholas Murray Butler, 2007-03

PREFACE THE Author of this very practical treatise on Scotch Loch Fishing desires clearly that it may be of use to all who had it He does not pretend to have written anything new but to have attempted to put what he has to say in as readable a form as possible Everything in the way of the history and habits of fish has been studiously avoided and technicalities have been used as sparingly as possible The writing of this book has afforded him pleasure in his leisure moments and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general This section is interleaved with blank sheets for the readers notes The Author need hardly say that any suggestions addressed to the case of the publishers will meet with consideration in a future edition We do not pretend to write or enlarge upon a new subject Much has been said and written and well said and written too on the art of fishing but loch fishing has been rather looked upon as a second rate performance and to dispel this idea is one of the objects for which this present treatise has been written Far be it from us to say anything against fishing lawfully practised in any form but many pent up in our large towns will bear us out when we say that on the whole a days loch fishing is the most convenient One great matter is that the loch fisher is depend ent on nothing but enough wind to curl the water and on a large loch it is very seldom that a dead calm prevails all day and can make his arrangements for a day weeks beforehand whereas the stream fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one

living near the banks of a good trout stream or river it is quite another matter to arrange for a days river fishing if one is looking forward to a holiday at a date some weeks ahead Providence may favour the expectant angler with a good day and the water in order but experience has taught most of us that the good days are in the minority and that as is the case with our rapid running streams such as many of our northern streams are the water is either too large or too small unless as previously remarked you live near at hand and can catch it at its best A common belief in regard to loch fishing is that the tyro and the experienced angler have nearly the same chance in fishing the one from the stern and the other from the bow of the same boat Of all the absurd beliefs as to loch fishing this is one of the most absurd Try it Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy or even a cast similar to those which a crack may be using and if he catches one for every three the other has he may consider himself very lucky Of course there are lochs where the fish are not abundant and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught and where each has a fair chance Again it is said that the boatman has as much to do with catching trout in a loch as the angler Well we dont deny that In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream fishing

Power, Terror, Peace, and War Walter Russell Mead, 2007-12-18 International affairs expert and award winning author of *Special Providence* Walter Russell Mead here offers a remarkably clear eyed account of American foreign policy and the challenges it faces post September 11 Starting with what America represents to the world community Mead argues that throughout its history it has been guided by a coherent set of foreign policy objectives He places the record of the Bush administration in the context of America s historical relations with its allies and foes And he takes a hard look at the international scene from despair and decay in the Arab world to tumult in Africa and Asia and lays out a brilliant framework for tailoring America s grand strategy to our current and future threats Balanced persuasive and eminently sensible *Power Terror Peace and War* is a work of extraordinary significance on the role of the United States in the world today
