grassroots initiative still funded by prominent external donors today seeks to foster public engagement through contact and therefore remove deeply embedded barriers This book examines the limited nature of this contact and explains why the P2P framework which was ostensibly concerned with the promotion of peace ultimately served to reinforce conflict and power relations The book is based on the author's own experience of the solidarity activities during the First Intifada and her first hand involvement as a coordinator of the P2P projects implemented during the 1990s It provides a much needed critical account of the internationally sponsored peace process and develops new theoretical analyses of settler colonialism
