## **Peace Versus Justice Negotiating Forward And Backward Looking Outcomes:**

Conflicted are the Peacemakers Eric N. Budd, 2012-12-20 The 1993 Oslo Accords were a key attempt to resolve the Palestinian Israeli conflict whose failure was largely attributed to extremists on both sides The book challenges this conventional wisdom by examining the role of Israeli and Palestinian peacemakers themselves in derailing the peace process Looking at the role of moderates before and after Oslo the different agreements and peace proposals they negotiated and their rhetoric the book shows that these peacemakers retained an inherent ambivalence toward the peace process and one another This prevented them and their constituents from committing to the process and achieving a lasting peace This unique survey shows how the people who drive the peace process can not only undermine it but also prevent its successful conclusion By dealing with such an important aspect of negotiation the book will foster a better understanding of the role of moderates and why peace processes may falter It will fill a gap in the literature and be a valuable research tool for anyone studying conflict processes the Arab Israeli conflict and Middle East politics

**Conflict Resolution and Status** Céline Francis, 2011 The dispute between Georgia and Abkhazia is not a conflict of equals In international conflicts adversaries may differ de facto on the ground in terms of population territory and capability among other things As internationally recognized states however they have equal de jure status and fears that inviting the other side to the negotiating table might be construed as recognition for example rarely intrude The question of status does pose problems however when a conflict is being fought between a recognized state and an unrecognized entity and these problems may contribute to increase the intractability of such conflicts This study explores how and to what extent the difference in status between a sovereign state and an unrecognized entity hinders conflict resolution activities Based on intensive fieldwork and unedited negotiation material the book provides an in depth analysis of the negotiations informal dialogues and grassroots activities that took place in Abkhazia and Georgia between 1989 and 2008

**Rethinking Peacebuilding** Karin Aggestam, Annika Björkdahl, 2013 This book presents new theoretical and conceptual perspectives on the problematique of building just and durable peace Linking peace and justice has sparked lively debates about the dilemmas and trade offs in several contemporary peace processes Despite the fact that justice and peace are commonly referred to there is surprisingly little research and few conceptualizations of the interplay between the two This edited volume is the result of three years of collaborative research and draws upon insights from such disciplines as peace and conflict international law political science and international relations It contains policy relevant knowledge about effective peacebuilding strategies as well as an in depth analysis of the contemporary peace processes in the Middle East and the Western Balkans Using a variety of theoretical perspectives and empirical approaches the work makes an original contribution to the growing literature on peacebuilding This book will be of much interest to students of peacebuilding peace and conflict studies Middle Eastern Politics European Politics and IR Security Studies

**Peace versus Justice** William I. Zartman, Victor

Kremenyuk,2005-04-21 This book examines the costs and benefits of ending the fighting in a range of conflicts and probes the reasons why negotiators provide or fail to provide resolutions that go beyond just stopping the shooting What is the desired and achievable mix between negotiation strategies that look backward to end current hostilities and those that look ahead to prevent their recurrence To answer that question a wide range of case studies is marshaled to explore relevant peacemaking situations from the end of the Thirty Years War and the Napoleonic Wars to more recent settlements of the late 20th and early 21st centuries including large scale conflicts like the end of WW II and smaller scale sometimes internal conflicts like those in Cyprus Armenia and Azerbaijan and Mozambique Cases on Bosnia and the Middle East add extra interest Published in cooperation with the International Institute for Applied Systems Analysis this important research is expertly edited by renowned conflict scholars I William Zartman and Victor Kremenyuk and includes original case studies from scholars and practitioners around the globe including Janice Gross Stein Daniel Druckman and Beth Simmons among many others     *Analyzing Strategic Rivalries in World Politics* William R. Thompson,Kentaro Sakuwa,Prashant Hosur

Suhas,2021-11-20 Strategic rivalries are contests between states that view one another as threatening competitors and treat each other as enemies A disproportionate amount of interstate conflict is generated by a relatively small number of these pairs of states engaged in rivalries that can persist for years Thus to understand interstate peace and conflict it is useful to know how rivalries work in general and more specifically In the past two decades a strenuous effort has been mounted to introduce the concept of rivalry and demonstrate its utility in unraveling conflict situations Yet all rivalries are not exactly alike We need to move to a more rewarding differentiation of how they differ in general Principal rivalries are those antagonisms that are most significant to the decision makers in a state The main distinction on issues about which rivals dispute are positional and spatial concerns Positional rivalries contend over regional and global influence Spatial rivals contend over which state deserves to control disputed territory Interventionary rivalries predominate in sub Saharan Africa Their primary focus involves neighboring states attempting to influence who rules and how co ethnics are treated This book updates the inventory of strategic rivalries from 1816 to 2020 Principal rivalries are identified for the first time and cover the same period A theory stressing the two main types of rivalry positional and spatial is elaborated and tested Regional variations on the origins and terminations of spatial rivalry are explored and interpreted In addition attention is paid to fluctuations in the intensity of positional rivalries by examining the working of the contemporary major power triangle United States Soviet Union Russia and China and more generally the dynamics of regional power that are rising in terms of their relative capability and status in the system Variations in cooperation and termination dynamics both in general and according to rivalry type are also examined Overall the emphases of the book are split between demonstrating the utility of distinguishing among rivalry types and examining selected rivalry dynamics     *The Go-between* Isak Svensson,Peter Wallensteen,2010 This volume explores international mediation through the lens of Ambassador Jan Eliasson an international

go between with a remarkable track record The authors draw lessons for the peacemaking process from their examination of how Eliasson entered prepared pursued and finally ended his mediation efforts *Peace versus Justice* William I.

examines the costs and benefits of ending the fighting in a range of conflicts and probes the reasons why negotiators provide or fail to provide resolutions that go beyond just stopping the shooting A wide range of case studies is marshaled to explore relevant peacemaking situations from the end of the Thirty Years War and the Napoleonic Wars to more recent settlements of the late 20th and early 21st centuries including large scale conflicts like the end of WWII and smaller scale sometimes internal conflicts like those in Cyprus Armenia and Azerbaijan and Mozambique Cases on Bosnia and the Middle East add extra interest **The Two-State Delusion** Padraig O'Malley,2015-07-28 Padraig O Malley is the subject of the new

acclaimed documentary The Peacemaker A thoughtful autopsy of the failed two state paradigm Evenhanded diplomatic mutually respectful and enormously useful Kirkus starred review Disputes over settlements the right of return the rise of Hamas recognition of Israel as a Jewish state and other intractable issues have repeatedly derailed peace negotiations between Israel and Palestine Now in a book that is sure to spark controversy renowned peacemaker Padraig O Malley argues that the moment for a two state solution has passed After examining each issue and speaking with Palestinians and Israelis as well as negotiators directly involved in past summits O Malley concludes that even if such an agreement could be reached it would be nearly impossible to implement given the staggering costs Palestine s political disunity and the viability of its economy rapidly changing demographics Israel s continuing political shift to the right global warming s effect on the water supply and more In this revelatory hard hitting book O Malley approaches the key issues pragmatically without ideological bias to show that we must find new frameworks for reconciliation if there is to be lasting peace between Palestine and Israel
