Routledge Handbook of Peacebuilding Roger Mac Ginty, 2024-08-20 This updated and revised second edition of the Routledge Handbook of Peacebuilding contains cutting edge analyses of contemporary attempts to reach and sustain peace. The book covers the main actors and dynamics of peacebuilding as well as the main challenges that it faces with accessible chapters. The volume is comprehensive covering everything from the main international institutions for peacebuilding to the links between peacebuilding and climate change or peacebuilding and trauma. It is also firmly interdisciplinary with a number of chapters devoted to showcasing how different disciplines interpret peacebuilding and how they contribute to it. Bringing together leading thinkers and practitioners on peacebuilding many from the Global South the handbook offers a valuable hands on perspective on how peace can be secured and sustained. There is a significant emphasis on comparison and the book shows how peacebuilding is best examined from the vantage point of multiple cases. The book is organised into six thematic sections: Part I Architecture and Actors; Part II Reading Peacebuilding; Part III Issues and Approaches; Part IV Violence and Security; Part V Everyday Living; Part VI Disciplinary Approaches. This book will be essential reading for students of peacebuilding, mediation and post conflict reconstruction and of great interest to students of statebuilding, intervention, civil wars, conflict resolution, war and conflict studies and IR in general. Chapter 25 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license.

Resilience, Peacebuilding, and Preventing Violent Extremism Cedric de Coning, Rui Saraiva, Ako Muto, 2025-07-31 This book offers a comprehensive analysis of the complex drivers of violent extremism along with recommendations for strengthening social and institutional resilience through peacebuilding and development efforts. By presenting a theoretical and empirical argument that places the emphasis on social cohesion, resilience and adaptive peacebuilding, this book challenges the conventional security led approach to countering violent extremism. Through a range of case studies from Africa, Asia and the Middle East including Syria, Iraq, Mozambique, Niger, Sri Lanka and the Philippines, it explores the complex dynamics of violent extremism and the ways in which it can be prevented and countered. Drawing on complexity theory and adaptive peacebuilding, the volume provides insights into how complex social systems adapt and respond to stress and how peacebuilders can support societies in uncertain, volatile and unpredictable contexts by improving their resilience and their adaptive capacity to sustain peace. This book will be of much interest to students of peacebuilding, security studies and countering violent extremism and professional practitioners.
