Jamieson,1982 Descriptive Guide to the Adirondacks, and Handbook of Travel to Saratoga Springs, Schroon Lake, Lakes Luzerne, George and Champlain, the Ausable Chasm, the Thousand Islands, Massena Springs and Trenton Falls Edwin R. Wallace,1876 **The Lumberman's Frontier** Thomas R. Cox,2010 With The Lumberman s Frontier Thomas Cox has reconstructed a groundbreaking history that stands apart from all previous studies of American forests Forests were ubiquitous in early America but it was only in selected areas that trees rather than farming attracted settlement These areas constitute the lumberman s frontier which appeared first in northern New England in the seventeenth century followed by upstate New York the Allegheny Plateau the upper Great Lakes states the Gulf South and the Far West The forest frontiers generated capital and building materials important in the nation s development but they also left a legacy of environmental problems class and urban rural divisions and economic frictions The 1930s marked the end of the lumberman s frontier but these consequences continue to shape attitudes and policies toward forests most notably

the questions Whose forests are they and How and by whom should forests be used Drawing upon recent work in social and economic history as well as a wealth of historical data on forest industries and individuals The Lumberman s Frontier neither glorifies economic development nor falls into the maw of gloom and doom It puts individual actors at center stage allowing the points of view of the workers and lumbermen to emerge The Lumberman s Frontier will appeal to students and scholars of forestry public policy and environmental history as well as to general readers interested in the history and settlement of the United States The Ancient Adirondacks Lincoln Barnett,1982
