Malta's Savior John Henshaw,2024-02-16 Holding the small island of Malta the British Empire s strategic centerpiece in the Mediterranean Sea was critical to the Allied cause in World War II and taking it was essential for Axis victory German forces laid siege to the island beginning in June 1940 and it soon became the most bombed place on Earth By August 1942 with supplies running out Malta was in dire need of relief In what was then the largest Royal Navy force yet assembled in the war two battleships three aircraft carriers seven light cruisers 32 destroyers and a fleet of transports were mustered from far flung theaters This day by day account of Operation Pedestal chronicles the planning execution and climactic battle that saw only five of 14 merchant ships make it to Valletta all but one heavily damaged Pedestal Peter Charles Smith,2002 In the summer of 1942 one of the main issues in the balance was the fate of Malta The island was still a bastion of the Royal Navy in the Mediterranean and a constant threat to the supply route for the enemy land forces in North Africa It bravely resisted every onslaught of the Axis powers but food supplies were desperately short and fuel oil running low In August of that year Operation Pedestal was launched a last attempt to relieve Malta Fourteen merchant ships were allocated to it and the Royal Navy provided the most powerful force ever to escort a convoy including four aircraft carriers Operating from Sardinia and Sicily the Germans and Italians let fly with their shore based aircraft on an unprecedented scale The losses on the British side were appalling but the objective was achieved and the blockade of Malta was finally lifted The War at Sea, 1939-1945 Stephen Wentworth Roskill,1954 Malta Convoys Source Wikipedia,2013-09 Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online Pages 27 Chapters Operation Pedestal Battle of Calabria Operation Harpoon Operation Vigorous Battle of Cape Spartivento Club Run Operation Stone Age

Operation White Operation Bowery Operation MB8 Operation Calendar Operation Excess Operation Halberd Operation Collar Operation Substance Operation Portcullis Excerpt Operation Pedestal was a British operation to get desperately needed supplies to the island of Malta in August 1942 during the Second World War Malta was the base from which surface ships submarines and aircraft attacked Axis convoys carrying essential supplies to the Italian and German armies in North Africa In 1941 42 Malta was effectively under siege blockaded by Axis air and naval forces To sustain Malta the United Kingdom had to get convoys through at all costs Despite serious losses just enough supplies were delivered for Malta to survive although it ceased to be an effective offensive base for much of 1942 The most crucial supply was fuel delivered by the SS Ohio an American built tanker with a British crew The operation started on 9 August 1942 when the convoy sailed through the Strait of Gibraltar The convoy is also known as the Battle of Mid August in Italy and as the Konvoj ta Santa Marija in Malta The arrival of the last ships of the convoy on August 15 1942 coincided with the Feast of the Assumption Santa Marija and the name Santa Marija Convoy or Sta Marija Convoy is still used That day s public holiday and celebrations in part celebrate the arrival of the convoy The attempt to run some fifty ships past bombers E boats minefields and submarines has gone down in military history as one of the most important British strategic victories of the Second World War However it was at a cost of more than 400 lives with only five of the original 14 merchant ships World War Two in Europe David T. British Fiji Class Cruisers and their Derivatives Conrad Waters, 2024-05-30 A follow up to the author s highly regarded history of British Town class cruisers this book takes the same approach combining coverage of the development design details and career highlights of the original class as well as the Uganda Minotaur and Tiger designs that were derived from them Often called the Colony class they were an attempt to incorporate the characteristics of the preceding Town class within the reduced 8 000 ton limit agreed under the 1936 London Treaty In general layout they resembled the earlier class but adopted upright rather than raked funnels and masts The use of a flat transom stern conferred both hydrodynamic and internal space advantages Not surprisingly they turned out to be very cramped ships which struggled to accommodate all the wartime additions of extra electronics and light AA guns as well as the increased crew needed to man them Many of the later modifications to existing ships and alterations to the succeeding designs were attempts to alleviate these issues most visibly the reduction of the main armament from four to three turrets Nevertheless they were available in significant numbers and gave sterling service across all theaters of the naval war In this major study Conrad Waters makes extensive use of archive material to provide a technical evaluation of the Fiji class design and its subsequent performance He outlines the class s origins in the context of inter war cruiser policy explains the design and construction process and describes the characteristics of the resulting ships and how these were adapted in the light of wartime developments An overview of service focuses on major engagements assessing the extent to which the class met its designers expectations and detailing

the consequences of action damage Later chapters continue the story into the Cold War era examining the various post war modernization programs and concluding with the radical redesign of the Tiger class that produced the Royal Navy's last conventional cruisers Heavily illustrated with contemporary photographs original plans and drawings by Dave Baker John Jordan and George Richardson British Fiji Class Cruisers provides a definitive reference to one of the Royal Navy's most important Second World War warship designs

Operation Pedestal Max Hastings, 2021-06-01 Renowned historian Max Hastings recreates one of the most thrilling events of World War II Operation Pedestal the British action to save its troops from starvation on Malta an action packed tale of courage fortitude loss and triumph against all odds In 1940 Hitler had two choices when it came to the Mediterranean region stay out or commit sufficient forces to expel the British from the Middle East Against his generals advice the Fuhrer committed a major strategic blunder He ordered the Wehrmacht to seize Crete allowing the longtime British bastion of Malta to remain in Allied hands Over the fall of 1941 the Royal Navy and RAF aided by British intelligence used the island to launch a punishing campaign against the Germans sinking more than 75 percent of their supply ships destined for North Africa But by spring 1942 the British lost their advantage In April and May the Luftwaffe dropped more

bombs on Malta than London received in the blitz A succession of British attempts to supply and reinforce the island by convoy during the spring and summer of 1942 failed British submarines and surface warships were withdrawn and the remaining forces were on the brink of starvation Operation Pedestal chronicles the ensuing British mission to save those troops Over twelve days in August German and Italian forces faced off against British air and naval fleets in one of the fiercest battles of the war while ships packed with supplies were painstakingly divided and dispersed In the end only a handful of the Allied ships made it most important among them the SS Ohio carrying the much needed fuel to the men on Malta As Hastings makes clear while the Germans claimed victory it was the British who ultimately prevailed for Malta remained a crucial asset that helped lead to the Nazis eventual defeat While the Royal Navy never again attempted an operation on such scale Hasting argues that without that August convoy the British on Malta would not have survived In the cruel accountancy of war the price was worth paying Schlachtschiffe und Schlachtkreuzer 1905-1970 Siegfried Breyer,1970 **Operation Pedestal 1942** Angus Konstam,2023-10-26 A fascinating story of a key turning point in the War in the Mediterranean as the island of Malta was thrown a vital lifeline Since 1940 the island of Malta had been a thorn in the Axis side It sat astride the direct sea route between Italy and its North African colonies and from 1941 the Royal Navy had used the island as a base for its attacks on Axis convoys The island though relied on convoys to survive and from early 1941 these came under increasingly heavy air and submarine attack As the situation became critical in 1942 the decision was made to send through a heavily protected convoy carrying fuel and supplies in an effort to save the island This mission was codenamed Operation Pedestal This fascinating work describes how after leaving Britain on 2 August 1942 the convoy was repeatedly pummeled by Axis air and submarine attacks as it ground its way towards Malta with most of the merchant ships sunk during the passage along with an aircraft carrier and two cruisers It also explores how despite this grim toll the sacrifice was worth it The specially commissioned illustrations in this work cover the progress of the convoy step by step the submarine and surface naval actions during Pedestal s voyage the Stuka attack on the carrier Indomitable and the air attacks against the convoy and the broader strategic situation in the Western Mediterranean The result is a unique visual exploration of one of the most famous episodes of the war in this theatre **Atlas of World War II Battle Plans** Stephen Badsey,2002 *Hitlers Siegeswaffen* Friedrich Georg,2003 **Deutschland im Zweiten Weltkrieg: Der grundlegende Umschwung im Kriegsverlauf (November 1942 bis September 1943)** ,1974
