talents of American artists or even the size of the American economy but also and especially the skills and entrepreneurship of American art dealers Their story has not been told until now *Landscape with Figures* is the first history of art dealing in the United States following the profession from eighteenth century portrait and picture salesmen in the colonies to the high profile jet set gallery owners of today Providing anecdotal and carefully researched biographies of the prominent dealers from more than two centuries of trade author Malcolm Goldstein shows how magnanimous personalities and social networking helped to shape the way Americans have bought and valued art These dealers range from Michael Paff whose enthusiasm often overshadowed his expertise but nonetheless helped him sell faux Old Master paintings to major collectors in the early nineteenth century to the imperious Joseph Duveen dealer to magnates like Henry Clay Frick to visionary Leo Castelli who helped to usher in a revolution in modern art during the 1960s by showing such avant garde artists as Jasper Johns Robert Rauschenberg and Andy Warhol Goldstein also shows that the American art trade while male dominated has been galvanized by female dealers including the inimitable Edith Gregor Halpert Peggy Guggenheim and Mary Boone Their fascinating stories unfold in the context of world art history the rise of major art institutions like the Museum of Modern Art and the Whitney Museum and the growing zeal of art collectors who would eventually pay millions for individual works of art Unprecedented and critical to understanding today's art world *Landscape with Figures* is a must for artists art history students and art lovers

Irene Rice Pereira Karen A. Bearor, 2011-07-06 Artist Irene Rice Pereira was a significant figure in the New York art world of the 1930s and 1940s who shared an interest in Jungianism with the better known Abstract Expressionists and with various women artists and writers seeking archetypal imagery Yet her artistic philosophy and innovative imagery elude easy classification with her artistic contemporaries In consequence her work is rarely included in studies of the period and is almost unknown to the general public This first intellectual history of the artist and her work seeks to change that Karen A Bearor thoroughly re creates the artistic and philosophical milieu that nourished Pereira's work She examines the options available to Pereira as a woman artist in the first half of the twentieth century and explores how she used those options to contribute to the development of modernism in the United States Bearor

traces Pereira's interest in the ideas of major thinkers of the period among them Spengler Jung Einstein Cassirer and Dewey and shows how Pereira incorporated their ideas into her art And she demonstrates how Pereira's quest to understand something of the nature of ultimate reality led her from an early utopianism to a later interest in spiritualism and the occult This lively intellectual history amplifies our knowledge of a time of creative ferment in American art and society It will appeal to a wide range of readers interested in the modernist period *Collections* ,2004 *Art of this Century* Solomon R.
