Die Dialektik von Geistesgeschichte und Theologie in der modernen Literatur Frankreichs Elke Lindhorst, 1995

Péguy devant Dieu Bernard Guyon, 1974

The Portal of the Mystery of Hope Charles Peguy, 2005-05-01 Translated by David L Schindler Jr In what is one of the greatest Catholic poetic works of our century Péguy offers a comprehensive theology ordered around the often neglected second virtue which is incarnated in his celebrated image of the little girl Hope

Jean Danielou's Doxological Humanism Marc Nicholas, 2013-07-25 Both Ephesians 4:11 and I Corinthians 12:29

attest to the distinctiveness of the roles of pastor and teacher and Nicholas claims that for the majority of recent history since the rise of Scholasticism this distinction has been strictly adhered to. The rise of the Scholastic method within theological discourse radically transformed the way theology was envisioned from its bases and method to its purpose and sources. This change had a far reaching effect on theology which would contribute to the discipline's self understanding. Whereas theology was initially more of a meditation on and exposition of God's self disclosure in the Word in the new style of theological discourse practiced by the schoolmen theology increasingly became the methodical parsing of abstract truth which was dissociated from the concrete realities of an embodied Christianity. However one need not maintain the possibility of distinct roles to the detriment of seeing both offices in a single individual. Indeed the New Testament and the early Fathers consistently exhibit a complete naivete concerning such a divide. The writers of the New Testament and the early Fathers were seen as complete personalities who were unable to envisage the separation of theology and spirituality. Jean Danielou's Doxological Humanism is primarily a discussion of the ways in which academic theology can reacquire itself with spirituality and the reasons it should. Nicholas turns to the writings of Jesuit theologian, historian and cardinal Jean Danielou and finds an understanding of who we are that necessitates this union. Further for Danielou an essential aspect of this unified view of the human person is its doxological nature. To attain the fullest expression of humanity is to participate in the adoration, worship and contemplation involved in the life of prayer.

By Way of Obstacles Emmanuel Falque, 2022-12-06 In *By Way of Obstacles* Emmanuel Falque revisits the major themes of his work: finitude, the body and the call for philosophers and theologians to cross the Rubicon by entering into dialogue in light of objections that have been offered. In so doing he offers a pathway through a work that will offer valuable insights both to newcomers to his thought and to those who are already familiar with it. For it is only after one has carved out one's pathway that one may see more clearly where one has been and where one might be going. Here readers will discover the profound relation between Falque's emphasis on the human experience of the world and his desire for philosophy and Christian theology to enter into conversation. For only by speaking within the human horizon of finitude can Christianity be credible for human beings and it is because Christian theology teaches that God entered into our finitude that it can also teach us something of what it is to be human. Contemporary phenomenology, Falque warns, over privileges an encounter with the infinite that cannot be originary. Calling us back to

finitude he calls us to a deeper understanding of our humanity *Französische Literatur des 20. Catholicism and Democracy Emile Perreau-Saussine,2023-05-02 How the Catholic Church redefined its relationship to the state in the wake of the French Revolution Catholicism and Democracy is a history of Catholic political thinking from the French Revolution to the present day Emile Perreau Saussine investigates the church s response to liberal democracy a political system for which the church was utterly unprepared Looking at leading philosophers and political theologians among them Joseph de Maistre Alexis de Tocqueville and Charles P guy Perreau Saussine shows how the church redefined its relationship to the state in the long wake of the French Revolution Disenfranchised by the fall of the monarchy the church in France at first embraced that most conservative of ideologies ultramontanism an emphasis on the central role of the papacy Catholics whose church had lost its national status henceforth looked to the papacy for spiritual authority Perreau Saussine argues that this move paradoxically combined a fundamental repudiation of the liberal political order with an implicit acknowledgment of one of its core principles the autonomy of the church from the state However as Perreau Saussine shows in the context of twentieth century totalitarianism the Catholic Church retrieved elements of its Gallican heritage and came to embrace another liberal and Gallican principle the autonomy of the state from the church for the sake of its corollary freedom of religion Perreau Saussine concludes that Catholics came to terms with liberal democracy though not without abiding concerns about the potential of that system to compromise freedom of religion in the pursuit of other goals *Péguy*
