

A woman with long dark hair and glasses, wearing a white sweater, is sitting on a green patterned chair at a white desk. She is looking at a laptop screen and holding a smartphone in her left hand. On the desk, there is a teal mug of coffee and a brown spiral notebook. In the background, there is a white sofa with a green and white patterned pillow, a potted plant, and a large window looking out onto a balcony with a railing and some outdoor furniture. The overall atmosphere is bright and modern.

Prototyping of User Interfaces for Mobile Applications Benjamin Bähr, 2017-03-14. This book investigates processes for the prototyping of user interfaces for mobile apps and describes the development of new concepts and tools that can improve the prototype-driven app development in the early stages. It presents the development and evaluation of a new requirements catalogue for prototyping mobile app tools that identifies the most important criteria such tools should meet at different prototype development stages. This catalogue is not just a good point of orientation for designing new prototyping approaches but also provides a set of metrics for comparing the performance of alternative prototyping tools. In addition, the book discusses the development of Blended Prototyping, a new approach for prototyping user interfaces for mobile applications in the early and middle development stages, and presents the results of an evaluation of its performance, showing that it provides a tool for teamwork-oriented creative prototyping of mobile apps in the early design stages.
