Shiatsu Foundation Course

Frances M. Tappan

Shiatsu Foundation Course:

Shiatsu Foundation Course Chris Jarmey, 1999 Shiatsu a Japanese bodywork therapy is a natural healing discipline from the same ancient oriental principles as acupuncture This text has been designed as an in depth introduction to the basic principles and methods of this practical healing art Shiatsu works by stimulating the body s vital energy flow in order to promote good health The practitioner uses palms thumbs and fingers elbows and even knees and feet to apply pressure and stretching to the energy lines or meridians *Shiatsu* Cathy Meeus, Paul Lundberg, 2000 Derived from an Eastern healing tradition dating back nearly 5 0000 years shiatsu meaning finger pressure is a relatively modern therapy that is now gaining popularity in the West It involves improving energy flow by applying pressure to stretching or manipulating specific parts of the body This book explains shiatsu terminology describes the therapeutic value of the practice and gives step by step instruction on how to perform shiatsu on yourself and others Master these complex often subtle techniques to help treat physical complaints and bring harmony to body and mind **The Poetry of Touch** Chris McAlister, 2023-02-14 Chris McAlister is currently one of the most prominent ambassadors of Shiatsu and the Asian way of life in the West In this comprehensive and easy to read book he takes the reader on a journey right into the heart of Oriental medicine and how it overlaps with modern Western science and philosophy His profound knowledge and experience are conveyed by stories peppered with personal experiences case studies and anecdotes Sometimes poetic and sometimes straight from the heart he explains how energy manifests itself whether it is the Five Spirits the I Ching or Traditional Chinese Medicine In The Poetry of Touch the author offers the reader a look into the perspective of a practitioner who has spent most of his life exploring the ins and outs of East Asian Medicine Given his grounding in shiatsu he naturally comes from a place of highly valuing the art of touch in the practice of traditional medicine He shares anecdotes and wisdom from a long and circuitous journey in East Asian Medicine He references the classics especially the Yijing the Book of Changes the primary source for Chinese philosophy and worldview Unraveling the symbols and images that are foreign to westerners but imbedded in the collective unconscious he lays out the implications of this foundational text in the practice of medicine Chris unpacks the healing arts of Oriental Medicine with respect and a genuine feeling for what is essential and in so doing refreshes it and paves the way for the next generation of practitioners Chris honors the diversity and full depth of East Asian medicine Not just as a monolith of ancient knowledge but as a living breathing truth that has to be rediscovered in the life and practice of each practitioner This is a brilliant example of the path of mastery which we are all on every time we consciously choose to cultivate this living tradition **Andrew Penman's Long Unwinding Road** Andrew Penman, 2012-10-02 At a very young age I always knew I would have an accident and would be doing everything that I am doing at present from health and fitness to aikido My first physiotherapist Debbie Harris maiden name got me on my feet and taught me to walk again saying The rest is up to you People with damage to the right temporal lobe are partially psyched I am also in a mildly euphoric state which means I

am happy all the time Old friends I had before the accident said I have exactly the same sense of humor I suppose it is the brain's way of keeping me in the dark about the situation I was in I would like to give my mother special thanks as she gave up her life to look after me My wife Lalita who says there is no one else on this planet like me My aikido sensei Peter Gillard who always stood by me Kenetsuka Sensei who overcame cancer through his aikido practice and the countless others who have helped me at vital stages and important times during my long and winding journey on the road to recovery The aim of this book is to give able and disabled people hope as when I had the accident I had no one to guide me or to follow as surviving a traumatic brain injury was virtually unheard of but now they are keeping people alive on a ventilator I had to learn by my mistakes Fortunately they weren't many It's all been a very slow job No pain no gain
