### **Shiis Of Jabal Amil And The New Lebanon Community And Nationstate 19181943:**

Stability and the Lebanese State in the 20th Century Tarek Abou Jaoude, 2022-08-25 Explaining state building failures in Lebanon during the 20th century this book looks at the relationship between legitimacy and stability in the country since the creation of the state in 1920 The presence of legitimacy is considered necessary to any successful state building endeavour This book argues that the Lebanese state failed to achieve any meaningful form of legitimacy from its inception in 1920 to its near collapse during the civil war However by analysing different eras of Lebanese history throughout the different presidential terms the author challenges the general understanding of stability and governance to show that the absence of legitimacy and society support actually contributed to the persistence of the Lebanese state More than this the evidence shows that Lebanese state was at its most stable when it was regarded as illegitimate The wider implicit question thus asked in the book revolves around a case where illegitimacy within the state is what ensures its stability and survival Based on primary sources including national archives and collections institutional documents personal memoirs newspapers and journals this book provides a rich survey on the development and functioning of Lebanese political institutions

Chalabi, 2006-02-06 Tamara Chalabi highlights the development of a politics of demand and the increased political activism of this community in a time of great change It also explores how Arab nationalism was transformed from an ideology of

**Violent Radical Movements in the Arab World** Peter Sluglett, Victor Kattan, 2019-07-11 Violent non state actors have become almost endemic to political movements in the Middle East and the Horn of Africa This book examines why they play such a key role and the different ways in which they have developed Placing them in the context of the region separate chapters cover the organizations that are currently active including The Muslim Brotherhood The Islamic State in Iraq and Syria Jabhat al Nusra Hamas Hizbullah the PKK al Shabab and the Huthis The book shows that while these groups are a new phenomenon they also relate to other key factors including the unfinished business of the colonial and postcolonial eras and tacit encouragement of the Wahhabi Salafi jihadi da wa by some regional powers Their diversity means violent non state actors elude simple classification ranging from national and transnational to religious and political movements However by examining their origins their supporters and their motivations this book helps explain their ubiquity in the region
