John Dryden, Walter Scott

Ship That Would Not Die:

The Ship That Would Not Die Stephen Curley, 2011-09-01 Starting its life as an attack transport in World War II and one of the last five left afloat by war's end the USS *Queens* saw action at Iwo Jima and other hot spots in the Pacific theater. After the war the ship became the SS *Excambion* one of the Four Aces of American Export Lines the only fully air conditioned ships in the world at the time. In 1965 the versatile *Excambion* underwent yet another transformation into a floating classroom. Recommissioned as the USTS *Texas Clipper* the ship began a third life as a merchant marine training vessel with its home port in Galveston. For the next three decades the *Texas Clipper* would be home to merchant marine cadets and by the time it was retired in 1996 it was the oldest active ship in the U.S. merchant marine fleet. Finally the *Texas Clipper* after protracted bureaucratic wrangling was designated to be sunk in the Gulf of Mexico as an artificial reef to provide habitat for marine life. In 2007 the ship was towed to its final resting place seventeen nautical miles off the coast of South Padre Island. Now 136 feet below the surface the venerable *Texas Clipper* lives on as the home to a wide variety of underwater species. Filled not only with meticulously researched technical and historical data about the ship's construction, service record, crew procedures and voyages, *The Ship That Would Not Die* also features lively anecdotes from crew members, passengers and officers. More than 140 color and black and white photos illustrate the ship's construction, its wide variety of shipboard life, the exacting process of making the *Texas Clipper* ready to become an artificial reef and its final sinking in the Gulf of Mexico. *The Ship that Would Not Die* Thomas E. Lightburn, 2008 A tempestuous wartime romance between Rob, a navy medic and Helen, an ATS girl stationed in London is interrupted when he is sent to HMS *Fury*, a destroyer. During Russian convoy duty Rob is not only faced with a series of emergencies that tax his medical skills but also sub-zero temperatures and constant attacks by the enemy. After taking part in The Battle of North Cape and the sinking of the German battleship *Scharnhorst*, *Fury* returns home. The two lovers meet again but as D-Day approaches *Fury* sails and to Rob's dismay letters from Helen stop arriving. After D-Day *Fury* is badly damaged in the most ferocious storm seen in the English Channel for twenty years. Some weeks later still without news Rob finally returns home desperate to find Helen. Using official reports from Kew Gardens and personal accounts this novel is meticulously researched and is based on fact. Many of the men named are still alive. Some characters are fictitious but the actions are real. This is a gripping tale which the reader will want to finish. Tom Lightburn paints a clear picture of what life was like for those involved in the war, whether on active service or just keeping the home fires burning. **The Fortunes of the "Ranger" and "Crusader".
