Ships And Ship Models 1931 1932 Vol1:

The Life and Ship Models of Norman Ough Alistar Roach, 2016-10-30 Brings Ough's life and work beautifully to light in a volume rich in photographs drawings technical detail and personality Schopenhauer's Workshop Norman Ough is considered by many as simply the greatest ship modeler of the twentieth century and his exquisite drawings and meticulous models have come to be regarded as masterpieces of draughtsmanship workmanship and realism more than technically accomplished ship models they are truly works of art This new book is both a tribute to his lonely genius and a practical treatise for model shipwrights Ough lived most of his adult life far from the sea in a flat high above the Charing Cross Road in London where his frugal existence and total absorption in his work led to hospitalization on at least two occasions he was an eccentric in the truest sense but he also became one of the most sought after masters of his craft Earl Mountbatten had him model the ships he had served on his model of HMS Queen Elizabeth was presented to Earl Beatty film production companies commissioned models for effects in several films Incorporating many of his original articles from Model Maker Magazine his detailed line drawings now kept in the Brunel Institute and photographs of his models held in museums and at Mountbatten's house this book presents an inspiring panorama of perhaps the most perfect warship models ever made An amazing almost intimidating view of the method modelling drawings and a life of a builder so obsessed with his work that some may say he was a man who went down with his ships FineScale Modeler [The Mariner's Mirror](#) Leonard George Carr Laughton, Roger Charles Anderson, William Gordon Perrin, 1996 [Ships Monthly](#), 2002 **Guide to the Records of Merseyside Maritime Museum, Volume 1** Gordon Read, Michael Stammers, 2017-10-18 This guide covers the following major collections hosted at the Merseyside Maritime Museum records deposited or presented under the 1958 Public Records Act official organisations including the Merseyside Docks and Harbour Board MDHB antecedents and successors shipping and trade associations and shipowners Other smaller categories are published in the accompanying Part II Vol 17 of Research in Maritime History ISBN 0 9681288 7 4 and together they form a comprehensive catalogue of contents The guide summarises each collection as follows a brief historical introduction a list of main items an archival code a datespan a quantity of records and a reference to any key printed sources held in the museum's Reading Room The museum archives are made up of crucial maritime documentation and are an invaluable resource for maritime historians The museum focuses primarily on Liverpool due to its previous status as the second major port of the United Kingdom it also houses a great deal of national and international records in a vast variety of media [General Catalogue of Printed Books](#) British Museum. When Shelley Wachsmann began his analysis of the small ship model excavated by assistants of famed Egyptologist W M F Petrie in Gurob Egypt in 1920 he expected to produce a brief monograph that would shed light on the model and the ship type that it represented Instead Wachsmann discovered that the model held clues to the identities and cultures of the enigmatic Sea Peoples to the religious practices of ancient Egypt and Greece and to the oared ships used by the Bronze Age Mycenaean Greeks Although found in Egypt the prototype of the Gurob model was clearly an Aegean style galley of a type used by both the Mycenaeans and the Sea Peoples The model is the most detailed representation presently known of this vessel type which played a major role in changing the course of world history Contemporaneous textual evidence for Sherden one of the Sea Peoples settled in the region suggests that the model may be patterned after a galley of that culture Bearing a typical Helladic bird head decoration topping the stempost with holes along the sheer strakes confirming the use of stanchions the model was found with four wheels and other evidence for a wagon like support structure connecting it with European cultic prototypes The online resources that accompany the book illustrate Wachsmann s research and analysis They include 3D interactive models that allow readers to examine the Gurob model on their computers as if held in the hand both in its present state and in two hypothetical reconstructions The online component also contains high resolution color photos of the model maps and satellite photos of the site and other related materials Offering a wide range of insights and evidence for linkages among ancient Mediterranean peoples and traditions The Gurob Ship Cart Model and Its Mediterranean Context presents an invaluable asset for anyone interested in the complexities of cultural change in the eastern Mediterranean at the end of the Bronze Age and the beginning of the Iron Age The Gurob ship cart model is was part of an exhibition entitled Beyond the Nile Egypt and the Classical World at the J Paul Getty Center March 27 September 9 2018 Read about it here <http://blogs.getty.edu/iris/egyptian-ship-model-sheds-light-on-bronze-age-warfare-and-religion/> Digital supplement to the book featuring 3D models <http://www.vizin.org/Gurob/Gurob.html> **Marine News** ,2003 **The National Union Catalog, Pre-1956 Imprints** Library of Congress,American Library Association.
