J. Colledge, 1987 **The Sailing Navy List** David Lyon, 1993 The Royal Navy comprehensive listing of its ships and their essential characteristics it not only includes basic specifications building data and fates but organises the material into types and classes with notes on design and designer Typical entries include dimensions tonnage armament builder construction dates and detailed notes on the fates of individual vessels with short narrative introductions outlining the principal influences on development The book is broken down into distinct periods further subdivided into the major ship types which together amount to a skeletal history of Royal Navy warship developments The coverage is remarkably complete taking in not only purpose built warships but also auxiliaries purchased ships and prizes It begins in 1688 partly reflecting the beginning of systematic records and carries the story down to the end of the age of sail Back cover **Ships of the Royal Navy** J. J. Colledge, 1969 **HMS London** Iain Ballantyne, 2002-06-06 A fascinating and lively account of the lives of

British warships named London looking at history from the perspective of the men who were there There is no current warship in the Royal Navy called HMS London but vessels carrying the name have featured in some of the most controversial episodes of British naval history For example the wooden wall battleship HMS London of the late 18th century could be called the ship that lost America while the heavy cruiser of WW2 was command vessel for the escort force that failed to safeguard the controversial convoy PQ17 Examining the stories of HMS Londons all the way from the English Civil War through the Battle of Copenhagen in 1801 where Nelson famously ignored signals to break off the action displayed by HMS London we also learn of the pre dreadnought London s participation in the ill fated Dardanelles campaign of WW1 Among the people Iain Ballantyne interviewed for this book were veterans of the Arctic convoys of WW2 the Yangtse Incident and warriors of the Cold War and 1991 Gulf War It all adds up to a thoroughly researched and exciting narrative of naval history Adding to the authenticity of the tale Iain even sailed to Russia in the last HMS London a Type 22 guided missile frigate in August 1991 During a WW2 convoy re enactment the ship was almost hit by a practice torpedo launched from a Soviet submarine and had to take evasive action

The Sail & Steam Navy List David Lyon,Rif Winfield,2004 David Lyon s highly regarded Sailing Navy List detailed every Royal Navy warship of the age of sail by era ship type and class This book is the much anticipated follow up volume It provides details of design and construction history technical specifications and fates for all warships of the important but poorly documented period between 1815 and 1889 which saw the introduction of steam power and the gradual replacement of sail Extensively illustrated the new work includes a representative collection of original plans from the little seen collection at the British National Maritime Museum In addition appendixes cover captured purchased and hired vessels as well as Coast Guard and packet vessels for which the Royal Navy was responsible Rif Winfield ably brought this volume to fruition after David Lyon s death in 2000 and their final collaboration is sure to be treasured by historians as well as modelers for its detailed data and diagrams
