Shop Boy An Autobiography:

Shop Boy John Birch Thomas, 1983 Childhood and Child Labour in the British Industrial Revolution Jane Humphries, 2010-06-24 This is a unique account of working class childhood during the British industrial revolution first published in 2010 Using more than 600 autobiographies written by working men of the eighteenth and nineteenth centuries Jane Humphries illuminates working class childhood in contexts untouched by conventional sources and facilitates estimates of age at starting work social mobility the extent of apprenticeship and the duration of schooling The classic era of industrialisation 1790 1850 apparently saw an upsurge in child labour While the memoirs implicate mechanisation and the division of labour in this increase they also show that fatherlessness and large subsets common in these turbulent high mortality and high fertility times often cast children as partners and supports for mothers struggling to hold families together The book offers unprecedented insights into child labour family life careers and schooling Its images of suffering stoicism and occasional childish pleasures put the humanity back into economic history and the trauma back into the industrial revolution **Bread Winner** Emma Griffin, 2020-04-14 The overlooked story of how ordinary women and their husbands managed financially in the Victorian era and why so many struggled despite increasing national prosperity Nineteenth century Britain saw remarkable economic growth and a rise in real wages But not everyone shared in the nation's wealth Unable to earn a sufficient income themselves working class women were reliant on the breadwinner wage of their husbands When income failed or was denied or squandered by errant men families could be plunged into desperate poverty from which there was no escape Emma Griffin unlocks the homes of Victorian England to examine the lives and finances of the people who lived there Drawing on over 600 working class autobiographies including more than 200 written by women **Bread Winner** changes our understanding of daily life in Victorian Britain **Chorley: Autobiography, Memoir, and Letters** Henry Fothergill Chorley, 1873 **The works of Ben Jonson, with notes, and a biogr. memoir, by W. Gifford. With intr. and appendices by F. Cunningham** Ben Jonson, 1875 **The Department Store** William Lancaster, 1995 The department store was brought to its first peak in the middle of the 19th century in Paris It was seized on and developed as a central feature of American urban life by the pioneers based particularly in Chicago Subsequently Gordon Selfridge left Chicago to bring the idea to London in the early 20th century **Memoir of Daniel Macmillan** Thomas Hughes, 1882 Endymion. Segrè, 2019-08-09 There are few books that explore the complex relations between famous parents and their children I knew Claudio and his Nobel laureate father

Emilio Segr in this honest angry loving memoir I hear their voices again speaking across the gulf that all families struggle to bridge Richard Rhodes author of *Dark Sun The Making of the Hydrogen Bomb* This is a warm and openhearted book Claudio Segr shows that all the traditional tensions between fathers and sons can still exist even in the extraordinary milieu he grew up in He evokes that experience with grace and a fine eye for the telling details Adam Hochschild author of *Half the Way Home* It s a wonderful book a coming of age story in the atomic era the struggle of a son for the love and respect of a famous father It is also a perceptive insight into the pursuit of science the price of fame and how families bridge differences between generations and cultures to find age old connections and ultimately love and understanding James Kunetka author of *City of Fire Los Alamos and the Atomic Age and Oppenheimer The Years of Risk* The Nobel Prize winning physicist Emilio Segr gave an account of his own life in the posthumously published *A Mind Always in Motion* In the present book Segr s only son now himself deceased gives an account of his growing up with such a father The experience as he describes it was not an easy one Transported in infancy from Italy to the United States Claudio was required to negotiate his way between his family s persistent conviction of European cultural superiority and the danger of being perceived as not one of us by his new compatriots Admiring his father he was conscious of himself as Son of Superman alternatively feeling eclipsed by and relishing the position Academically he was beset by a joyless desire to achieve and only seldom gained the praise or sympathy he longed for from his exacting and often sarcastic father But he discovered the delights of hot dogs comic books and baseball and forged ahead on his own by choosing the reputedly Red Reed College over his family s preferred Berkeley After graduation in search of work to which he could be as devoted as my father was to physics he spent some years as a journalist before ultimately making a creditable academic career as a historian along the way establishing an apparently satisfactory family life of his own The book ends with an account of his relations with his father as an adult including a disappointing attempt at a therapeutic confrontation Katherine Livingston *Science* How does a son emerge from his father s shadow when it is the size of a mushroom cloud Such was the plight of Claudio G Segr whose father Emilio won the Nobel Prize in Physics in 1959 and helped to create the atomic bomb He recounts his lifelong quest to establish an independent identity He also tells of his hope that his own success would earn him the respect and acceptance of his difficult father Segr alternately describes his father as Superman a mighty king and a basilisk a mythical reptile whose very look is fatal Nevertheless his father emerges as a good caring man unsure how to handle the fame that separates him from his son It is tragic therefore that no true reconciliation occurs and that Segr s only moment of catharsis takes place when it is already too late in 1989 when he delivers his father s eulogy Douglas A Sylva *The New York Times* In this heartfelt counterpart to his father s autobiography *A Mind Always in Motion* journalist and professor Claudio Segr attempts to shed some thawing light on the cold peace between father and son that lasted until Emilio Segr s death in 1989 despite the affectionate nose rubbings of the title *Publishers Weekly* The son of a Nobel laureate and Manhattan Project collaborator meditates on the inspirations

and disappointments of a difficult relationship In 1959 the author s father shared the Nobel Prize for his work on antimatter But fatherhood isn t as precise a science as physics and young Claudio mixed pride in his father s superman achievements with frustration and rage at the impossible standards and criticisms that so outweighed the occasional moment of affection between them Segr s memoir of an immigrant childhood is often poignant at bottom a thoughtful account of life with a father who found the behavior of atomic particles far easier to comprehend than the emotional life of his son Kirkus Reviews
