Short People:

Doing What Comes Naturally Stanley Fish, 1989 In literary theory the philosophy of law and the sociology of knowledge no issue has been more central to current debate than the status of our interpretations Do they rest on a ground of rationality or are they subjective impositions of a merely personal point of view In **Doing What Comes Naturally** Stanley Fish refuses the dilemma posed by this question and argues that while we can never separate our judgments from the contexts in which they are made those judgments are nevertheless authoritative and even in the only way that matters objective He thus rejects both the demand for an ahistorical foundation and the conclusion that in the absence of such a foundation we reside in an indeterminate world In a succession of provocative and wide ranging chapters Fish explores the implications of his position for our understanding of legal literary and psychoanalytic interpretation the nature of professional and institutional culture and the place of reason in a world that is rhetorical through and through Publisher description

Grown Up All Wrong Robert Christgau, 2000-11-01 Two generations of American music lovers have grown up listening with Robert Christgau attuned to his inimitable blend of judgment acuity passion erudition wit and caveat emptor His writings collected here constitute a virtual encyclopedia of popular music over the past fifty years Whether honoring the originators of rock and roll celebrating established artists or spreading the word about newer ones the book is pure enjoyment a pleasure that takes its cues from the sounds it chronicles A critical compendium of points of interest in American popular music and its far flung diaspora this book ranges from the 1950s singer songwriter tradition through hip hop alternative and beyond With unfailing style and grace Christgau negotiates the straits of great music and thorny politics as in the cases of Public Enemy blackface artist Emmett Miller KRS One the Beastie Boys and Lynyrd Skynyrd He illuminates legends from pop music and the beginnings of rock and roll George Gershwin Nat King Cole B B King Chuck Berry and Elvis Presley and looks at the subtle transition to just plain rock in the music of Janis Joplin the Rolling Stones Eric Clapton Aretha Franklin James Brown and others He praises the endless vitality of Al Green George Clinton and Neil Young And from the Rolling Stones to Sonic Youth to Nirvana from Bette Midler to Michael Jackson to DJ Shadow he shows how money calls the tune in careers that aren't necessarily compromised by their intercourse with commerce Rock and punk and hip hop pop and world beat this is the music of the second half of the twentieth century skillfully framed in the work of a writer whose reach insight and perfect pitch make him one of the major cultural critics of our time
