Powell,2009-10-09 With the Commonwealth of Virginia s Public Park Condemnation Act of 1928 the state surveyed for and acquired three thousand tracts of land that would become Shenandoah National Park The Commonwealth condemned the homes of five hundred families so that their land could be donated to the federal government and placed under the auspices of the National Park Service Prompted by the condemnation of their land the residents began writing letters to National Park and other government officials to negotiate their rights and to request various services property and harvests Typically represented in the popular media as lawless illiterate and incompetent these mountaineers prove themselves otherwise in this poignant collection of letters The history told by the residents themselves both adds to and counters the story that is generally accepted about them These letters are housed in the Shenandoah National Park archives in Luray Virginia which was opened briefly to the public from 2000 to 2002 but then closed due to lack of funding This selection of roughly 150 of these letters in their entirety makes these documents available again not only to the public but also to scholars researchers and others interested in the region s history in the politics of the park and in the genealogy of the families Supplementing the letters are introductory text photographs annotation and oral histories that further document the lives of these individuals Shenandoah National Park ,1929 **Shenandoah** Sue Eisenfeld,2015-02 For fifteen years Sue Eisenfeld hiked in Shenandoah National Park in the Virginia Blue Ridge Mountains unaware of the tragic history behind the creation of the park In this travel narrative she tells the story of her on the ground discovery of the relics and memories a

few thousand mountain residents left behind when the government used eminent domain to kick the people off their land to create the park With historic maps and notes from hikers who explored before her Eisenfeld and her husband hike backpack and bushwhack the hills and the hollows of this beloved but misbegotten place searching for stories Descendants recount memories of their ancestors grieving themselves to death and they continue to speak of their people's displacement from the land as an untold national tragedy Shenandoah A Story of Conservation and Betrayal is Eisenfeld's personal journey into the park's hidden past based on her off trail explorations She describes the turmoil of residents removal as well as the human face of the government officials behind the formation of the park In this conflict between conservation for the benefit of a nation and private land ownership she explores her own complicated personal relationship with the park a relationship she would not have without the heartbreak of the thousands of people removed from their homes
