Sherwood Game:

The Little Things That Matter in the Big Game Kathy Boehlert, Patrick Boehlert, 2012-10 What did a high school varsity basketball team and a nine year old boy with cancer have to do with each other during the 2010 2011 season The basketball team encouraged and lifted up the nine year old The nine year old encouraged and lifted up the basketball team This is the story of how a local high school basketball team helped my son Patrick through the difficult chemotherapy he was receiving to treat stage three acute lymphoblastic lymphoma They didn't know anything about Patrick other than that he was a big fan when the season started As the season went on all thirteen players began to reach out to Patrick eventually he became part of the team Their interactions and support gave Patrick windows of time when he was not a cancer patient He was a fan and a teammate Patrick served as an example to the team that there is more to life than basketball He showed them that life is The Big Game and that the little things really do matter I think this is a great story and all young athletes should read this It reminds us all that there is always somebody watching you and you are making a difference in their life one way or another Dan Harwood teacher and basketball coach at Magruder High School

Digital Gaming Re-imagines the Middle Ages Daniel T. Kline, 2013-09-11 Digital gaming's cultural significance is often minimized much in the same way that the Middle Ages are discounted as the backward and childish precursor to the modern period Digital Gaming Reimagines the Middle Ages challenges both perceptions by examining how the Middle Ages have persisted into the contemporary world via digital games as well as analyzing how digital gaming translates adapts and remediates medieval stories themes characters and tropes in interactive electronic environments At the same time the Middle Ages are reinterpreted according to contemporary concerns and conflicts in all their complexity Rather than a distinct time in the past the Middle Ages form a space in which theory and narrative gaming and textuality identity and society are remediated and reimagined Together the essays demonstrate that while having its roots firmly in narrative traditions neomedieval gaming where neomedievalism no longer negotiates with any reality beyond itself and other medievalisms creates cultural palimpsests multiply layered trans temporal artifacts Digital Gaming Re imagines the Middle Ages demonstrates that the medieval is more than just a stockpile of historically static facts but is a living subversive presence in contemporary culture
