**Central and Eastern Europe After Transition** Wojciech Sadurski, 2016-04-08 How have national identities changed developed and reacted in the wake of transition from communism to democracy in Central and Eastern Europe Central and Eastern Europe After Transition defines and examines new autonomous differences adopted at the state and the supranational level in the post transitional phase of the post Communist area and considers their impact on constitutions democracy and legal culture With representative contributions from older and newer EU members the book provides a broad set of cultural points for reference Its comparative and interdisciplinary approach includes a useful selection of bibliographical resources specifically devoted to the Central Eastern European countries transitions

**Eastern Europe Since 1970** Bulent Gokay, 2015-12-22 From the hardening grip of Soviet domination under Brezhnev to the collapse of communism and its aftermath Bulent Gokay provides the essential introduction to Eastern Europe in the last quarter of the twentieth century The Soviet invasion of Czechoslovakia in 1968 spelt the end of reformist communism and the tightening of Soviet control throughout Eastern Europe In spite of this several countries within the Soviet Bloc managed to retain varying degrees of independence over the next two decades Focusing on the struggle towards economic and social modernisation in the region and the competing influences of East and West in a dangerous Cold War Bulent Gokay shows how individual circumstances and diverse national characteristics made a uniform application of the Soviet model impossible and charts the growing resistance to domination and the momentous events which finally toppled Soviet power in the region

**Communication in Eastern Europe** Fred L. Casmir, 1995 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company

The Romanian Revolution of December 1989 Peter Siani-Davies, 2007 The Romanian Revolution of 1989 was the most spectacularly violent and remains today the most controversial of all the East European upheavals of that year Despite or perhaps because of the media attention the revolution received it remains shrouded in mystery How did the seemingly impregnable Ceausescu regime come to be toppled so swiftly and how did Ion Iliescu and the National Salvation Front come to power Was it by coup d'etat Who were the mysterious terrorists who wreaked such havoc on the streets of Bucharest and the other major cities of Romania Were they members of the notorious securitate What was the role of the Soviet Union Blending narrative with analysis Peter Siani Davies seeks to answer these and other questions while placing the events and their immediate aftermath within a wider context Based on fieldwork conducted in Romania and drawing heavily on Romanian sources including television and radio transcripts official documents newspaper reports and interviews this book is the most thorough study of the Romanian Revolution that has appeared in English or any

other major European language Recognizing that a definitive history of these events may be impossible Siani Davies focuses on the ways in which participants interpreted the events according to particular scripts and myths of revolution rooted in the Romanian historical experience In the process the author sheds light on the ways in which history and the conflicting retellings of the 1989 events are put to political use in the transitional societies of Eastern Europe *Osteuropa* ,1993

Central Europe and the former Soviet Union Democracy in Europe and the Americas Seymour Martin

Lipset,Congressional Quarterly, inc,1998 From the Magna Carta 1215 to the Summit of the Americas Declaration of Principles 1994 this reference traces the growth of democracy in the West It covers 39 countries and regions offering information on the history and political state of each Artful Practices Henri Lustiger-Thaler,Daniel Salée,1994 This book is about the social practices of survival Case studies from Italy the United Kingdom Chile Trinidad and Tobago the United States Canada and Israel are included and offer an intriguing look at new emancipatory possibilities for citizens and their cities As the social economic and political institutions we have lived with since the post war settlement undergo massive transformations a larger drama is being played out as broad segments of the population are increasingly marginalized and left alone to face the tyranny of ever triumphant market forces The terms of the social contract are being renegotiated and

the artful practices of citizens coping with these massive changes point to a new political economy of everyday life

Humanity, Society and Commitment Kenneth McRobbie,1994      **Our Generation** ,1993      *Democracy* John Riser,2004

Primarily concerned with conceptual clarification and normative assessment Riser retired U of Central Florida considers the minimal criteria of a meaningful concept of democracy Disconnecting democracy from a paradigmatic association with the form of the state he argues for a sense of democracy based on positive freedom inherently comprising      **Should Auld Acquaintance be Forgot--?** Beate Völker,1995 Should Auld Acquaintance Be Forgot This traditional Scottish farewell song seems to depict the social situation of East German citizens after the political upheaval in the Autumn of 1989 This study focuses on the question whether seemingly private decisions such as with whom to interact are influenced by institutional contexts Citizens of the former GDR have been confronted with three different institutional environments during the last six years communism capitalism and the transition from one system to the other It is argued that every institutional context leads to specific personal experiences and problems Since personal networks are a means of solving these problems people create different patterns of personal relationships and networks according to the institutional environment What did socialist personal networks look like and how and why did they change after the transition An effort was made to formulate theoretical arguments which were tested using data collected on three different points in time before and after the transition The discussion results in arguments on the extent to which Marxism created social openness and especially social cohesion a promise of a Marxist utopia      **Complicity** Sharon Scharfe,1996
