Metaversed Luis Bravo Martins, Samantha G. Wolfe, 2022-12-22 Understand the coming metaverse and discover how to look past the hype and harness the future of technology *Metaversed* is an insightful discussion and analysis of the next rapidly approaching technological revolution The authors deliver a compelling new exploration of how the metaverse and emerging technologies combine to define our collective future In addition to identifying the business opportunities the book pulls back the curtain on major safety and privacy issues that will arise and the expected shifts in both our private and social spheres In the book you ll understand How multiple industries will be changed and challenged in a 3D spatial world and how to navigate the future crypto ladden business landscape Legal and policy considerations necessary to build and maintain safe shared digital spaces The economic and social impacts including the potential for our digital lives to outlive our physical selves Actionable insights so you can make the most out of the next digital revolution *Metaversed* is a can t miss presentation of the most significant market opportunities and societal challenges posed by the metaverse It also will empower readers to take positive action that avoids the same online mistakes that happened on social media and create more responsible tech usage habits in our personal and professional lives *Regulating the Metaverse* Ignas Kalpokas, Julija Kalpokienė, 2023-01-26 The metaverse seems to be on everybody s lips and yet very few people can actually explain what it means or why it is important This book aims to fill the gap from an interdisciplinary perspective informed by law and media

and communications studies Going beyond the optimism emanating from technology companies and venture capitalists the authors critically evaluate the antecedents and the building blocks of the metaverse the design and regulatory challenges that need to be solved and commercial opportunities that are yet to be fully realised While the metaverse is poised to open new possibilities and perspectives it will also be a dangerous place one ripe with threats ranging from disinformation to intellectual property theft to sexual harassment Hence the book offers a useful guide to the legal and political governance issues ahead while also contextualising them within the broader domain of governance and regulation of digital technologies

Children's Rights and Children's Development: An Integrated Approach Jonathan Todres, Ursula

Kilkelly, 2025-01-21 Offers an assessment of how children's rights take shape and are realized at various stages of child development and in turn can and should inform law and policy Children's rights and child development frameworks are critical to understanding children's lived experiences advancing child wellbeing and implementing children's rights However research in the two fields has proceeded largely on separate tracks Children's Rights and Child Development seeks to forge opportunities to deepen understanding about children's rights in light of the scientific research on child development to inform fresh perspectives on research law and policy affecting children Drawing on existing literature studies and research Children's Rights and Child Development provides an in depth examination of the fundamental stages in childhood development early childhood middle childhood and adolescence The book goes beyond the often very general language in law and policies that considers children as a homogenous group It delineates how the rights of young people can be understood at each stage of development and how this can and should inform law and policy on children's rights Integrating children's perspectives with the expertise from leading scholars in children's rights and child development Todres and Kilkelly reveal how an integrated approach to child rights and child development can be most impactful to child advocacy This book is essential reading for anyone interested in child advocacy offering insight into how the rights of young people can be understood at different stages of development in a developmentally appropriate and rights compliant manner The

Everything Token Steve Kaczynski, Scott Duke Kominers, 2024-01-25 NFTs cause excitement and skepticism How much value can a token hold What drives this value To properly appreciate NFTs we must first understand what they actually are how they work and in what contexts they are used The Everything Token is an essential primer on NFTs non fungible tokens explaining their use purpose and how businesses can create and exploit them to develop new product lines building customer loyalty and increased revenues at the same time Together the authors have spent much of the past few years embedded in NFT communities and helping launch NFT products As self described beta testers of this brand new technology they've seen its power first hand and aim to educate others on the importance uses and purpose of NFT and surrounding ever evolving technologies Demystifying the complexities two experts in NFTs show why we should take NFTs much more seriously than their reputation as fun digital art collectibles suggest They have a wider variety of uses than one may realise Gripping and
