## **Russia In Transition Policies Classes And Inequalities:**

Russian Modernization Markku Kivinen, Brendan G. Humphreys, 2020-11-29 Building on an original interpretation of social theory and an interdisciplinary approach this book creates a new paradigm in the Russian studies Taking a fresh view of Russia's multiple experiences of modernization it seeks to explain the Putin era in a completely new way This book explores the paradoxical and contradictory aspects of Russia analyzing the energy dependent economy and hybrid political regime but also religion welfare and culture and their often complex interrelations Written by a community of both Western and Russian scholars this book reaffirms the value of social science when confronting a society that has undergone enormous and costly systematic changes The Russian elites see modernization narrowly as economic and technological competitiveness The contributors to this volume see contemporary Russia facing a series of antinomies which are macro level dilemmas that cannot be abolished either by philosophical mediation or by immediate political decisions As such they are the tension fields that constitute choices for various competing agencies This book will be of interest to scholars and students of Russian studies transition studies sociology social policy political science energy policy cultural studies and stratification studies Professionals involved in energy ecology and security policy will also find this publication a rich source

*Inequalities of the World* Göran Therborn, 2006 A groundbreaking exploration of contemporary global inequality by leading scholars from across the world      *Urban China in Transition* John Logan, 2011-07-22 Using an innovative approach this book interprets the unprecedented transformation of contemporary China's major cities It deals with a diversity of trends and analyzes their sources Offers a multi dimensional analysis of urban life in China Highlights a diversity of trends in the areas of migration criminal victimization gated communities and the status of women suburbanization and neighbourhood associations Each chapter includes input from both an expert on urban life in China and an outside expert from the fields of sociology geography economics planning political science history demography architecture or anthropology An alternative theoretical perspective comparing the Chinese experience with other urban settings in the United States Poland Russia Vietnam East and South East Asia and South America      Ethnic Stratification and Economic Inequality around the World Max Haller in collaboration, Anja Eder, 2016-03-03 The modern world is characterised by pervasive economic inequalities Strong economic growth in some developing countries has contributed to a degree to a reduction in the levels of inequality between nations yet inequality within nations remains high and in some cases continues to increase Ethnic Stratification and Economic Inequality around the World investigates the reasons for these striking differences exploring the coincidence and interaction between economic stratification and ethnic differentiation Drawing on extensive international survey and statistical data the author develops a new theory and concrete hypotheses concerning the conditions which lead toward extreme inequality and those which tend toward greater equality A systematic examination of the interaction between class structures social stratification and ethnic differentiation this book sheds light on the manner in which the resulting social

structures produce different levels of economic inequality offering a fivefold typology of patterns of ethnic stratification which can be applied to present day world regions Drawing on the work of Max Weber to provide a rigorous investigation of inequality around the world it demonstrates what sociology as a science of social reality can significantly contribute to our understanding of global economic stratification The book is relevant for a wide social scientific audience particularly for sociologists economists and political scientists working in a comparative perspective

**The Oxford Companion to Comparative Politics** Joel Krieger, 2013 The two volume Oxford Companion to Comparative Politics fills a gap in scholarship on an increasingly important field within Political Science Comparative Politics the discipline devoted to the politics of other countries or peoples has been steadily gaining prominence as a field of study allowing politics to be viewed from a wider foundation than a concentration on domestic affairs would permit Comparativists apply various theories and concepts to analyze the similarities and differences between political units using the results of their research to develop causalities and generalizations Each of these theories and outcomes are thoroughly defined in the Companion as are major resultant conclusions those comparativists who have influenced the field in significant ways and politicians whose administrations have shaped the evaluation of contrasting governments Approximately 200 revised and updated articles from the Oxford Companion to Politics of the World would serve as a foundation for the set while over 100 new entries would thoroughly examine the field in a lasting more theoretical than current event based way New entries cover such topics as failed states Grand Strategies and Soft Power important updates include such countries as China and Afghanistan and issues like Capital Punishment Gender and Politics and Totalitarianism Country entries include the most significant nations to permit a focus on non time sensitive analysis In addition 25 1 000 word interpretive essays by notable figures analyze the discipline its issues and accomplishments Collectively entries promote deeper understanding of a field that is often elusive to non specialists
