Learning Conversations in Museums Gaea Leinhardt,Kevin Crowley,Karen Knutson,2003-01-30 What do people learn from visiting museums and how do they learn it The editors approach this question by focusing on conversations as both the process and the outcome of museum learning People do not come to museums to talk but they often do talk This talk can drift from discussions of managing the visit to remembrances of family members and friends not present to close analyses of particular objects or displays This volume explores how these conversations reflect and change a visitor s identity discipline specific knowledge and engagement with an informal learning environment that has been purposefully constructed by an almost invisible community of designers planners and educators Fitting nicely into a small but rapidly expanding market this book presents one of the first theoretically grounded set of studies on museum learning an explicit presentation of innovative and rich methodologies on learning in museums information on a variety of museums and subject matter a study on exhibitions ranging from art to science content authors from the museum and the academic world a range of methods from the analysis of diaries written to record museum visits to studies of preservice teachers using pre and post museum visit tests an examination of visitors ranging from age 4 75 years of age and from known and unknown sample populations and a lens that examines museum visits in a fine grained 1 second or big picture week year long way **Quilt Squares and Block Towns** Susan Jo Russell,2006 *That Dorky Homemade Look* Lisa Boyer,2002-05-01 Fed up with feeling like you can t meet

the standards of the Quilt Police Do you want to quilt for comfort and pleasure and not to win some high falutin quilting contest Weary of worrying about what others will think of your color choices or your pieced points Or your applique stitches That Dorky Homemade Look Quilting Lessons from a Parallel Universe is the quilting companion you ve been wishing for Lisa Boyer a popular columnist for Quilting Today magazine gives you permission to quilt because you love it She clears your path of all those merciless judgments pronounced by the Quilting Queens She invites you to make quilts that are full of life This funny book offers these nine principles for the 20 million quilters in America 1 Pretty fabric is not acceptable Go right back to the quilt shop and exchange it for something you feel sorry for 2 Realize that patterns and templates are only someone s opinion and should be loosely translated Personally I ve never thought much of a person who could only make a triangle with three sides 3 When choosing a color plan for your quilt keep in mind that the colors will fade after a hundred years or so This being the case you will need to start with really bright colors 4 You should plan on cutting off about half your triangle or star points Any more than that is showing off 5 If you are doing applique remember that bigger is dorkier Flowers should be huge Animals should possess really big eyes 6 Throw away your seam ripper and repeat after me Oops Oh no one will notice 7 Plan on running out of border fabric when you are three quarters of the way finished Complete the remaining border with something else you have a lot of preferably in an unrelated color family 8 You should be able to quilt equally well in all directions I had to really work on this one It was difficult to make my forward stitching look as bad as my backward stitching but closing my eyes helped 9 When you have put your last stitch in the binding you are still only half finished Your quilt must now undergo a thorough conditioning Give it to someone you love dearly to drag around the house wrap up in spill something on and wash and dry until it is properly lumpy No reason not to have quilting be a pleasure says Lisa Boyer who has as firm a grip on her sense of humor as she does on her quilting needles If we didn t make Dorky Homemade quilts all the quilts in the world would end up in the Beautiful Quilt Museum untouched and intact Quilts would just be something to look at We would forget that quilts are lovable touchable shreddable squeezable chewable and huggable made to wrap up in when the world seems to be falling down around us
