Reconceiving Decision Making In Democratic Politics:

Reconceiving Decision-Making in Democratic Politics Bryan D. Jones, 1995-03-15 Most models of political decision making maintain that individual preferences remain relatively constant Why then are there often sudden abrupt changes in public opinion on political issues Or total reversals by politicians on specific issues Bryan D Jones answers these questions by innovatively connecting insights from cognitive science and rational choice theory to political life Individuals and political systems alike Jones argues tend to be attentive to only one issue at a time Using numerous examples from elections public opinion polls congressional deliberations and of bureaucratic decision making he shows how shifting attentiveness can and does alter choices and political outcomes even when underlying preferences remain relatively fixed An individual for example may initially decide to vote for a candidate because of her stand on spending but change his vote when he learns of her position on abortion never really balancing the two options Demografischer Wandel und unpopuläre Reformen Sven Stadtmüller, 2016-05-03 Sven Stadtmüller zeigt anhand von Labor und Online Experimenten dass durch die Vermittlung von Informationen zum demografischen Wandel und zur Umlagefinanzierung der Rente eine positivere Einstellung zur Rente mit 67 hervorgerufen werden kann Er führt aus bei welchen Personengruppen Informationen besonders wirksam sind und wie diese dargeboten werden müssen um eine günstigere öffentliche Meinung zu der Reform zu erzeugen Grundlegend für seine Untersuchung ist seine Beobachtung dass die demografischen Trends die Funktionsweise des Rentensystems und die Zusammenhänge von Demografie und Alterssicherung in der Bevölkerung nicht wie gemeinhin angenommen jedem gelufig sind *Das politische Organisationsfeld* Frank Janning, 2013-07-02 Die Theorie des politischen Organisationsfeldes versucht aufzuzeigen da Organisationen und akademisch ausgebildeten Berufsgruppen ein immer größerer Stellenwert für die politisch angeleitete Ausdifferenzierung und Fortentwicklung komplexer Gesellschaften zukommt Zu diesem Zweck verwendet der Autor zentrale Annahmen der Bourdieuschen Feldtheorie insbesondere den Aspekt einer Homologie einer Strukturähnlichkeit und Wahlverwandtschaft von sozialen Statuskonflikten für die Analyse und Konzeptualisierung der interorganisationellen Politikgestaltung Auf diese Weise gelingt es ein angemesseneres Erklärungsmodell für die Konstitutions und Reproduktionsweisen von politischer Macht vorzustellen **Handbuch Policy-Forschung** Georg Wenzelburger, Reimut Zohlnhöfer, 2015-02-24 Das Handbuch bietet einen Überblick über den aktuellen Stand der Policy Forschung der in drei Teile gegliedert ist Die Theorie Beiträge präsentieren die Annahmen Grundideen Hauptargumente und Hypothesen der jeweiligen Theorieansätze zur Erklärung von Policies und diskutieren die empirische Eignung der Theorie durch einen Überblick über den Forschungsstand Die Beiträge Methoden der Policy Forschung stellen Grundzüge Stärken und Schwächen sowie Anwendungsfelder einschlägiger Methoden dar Anhand ausgewählter Politikfelder werden Ergebnisse der Policy Forschung in unterschiedlichen Bereichen der Staatstätigkeit aufgezeigt und Querverbindungen sowohl zu den unterschiedlichen theoretischen Zugängen als auch zu unterschiedlichen Methoden gezogen **Politikfeldanalyse im Studium** Renate

Integrating Cognitive and Rational Theories of Foreign Policy Decision Making A. Mintz, 2016-04-30 There are two dominant approaches to political decision making in general and foreign policy decision making in particular rational choice and cognitive psychology The essays here introduce and test the poliheuristic theory of decision making that integrates elements of both schools The poliheuristic theory is able to account for the outcome and the process of decisions and integrates across levels of analysis individual dyad and group The collection focuses on both elements of the theory itself and also looks at how the theory can be used to better understand political decisions that were made in the past

Mediated Democracy Michael W. Wagner, Mallory R. Perryman, 2020-07-16 Mediated Democracy Politics the News and Citizenship in the 21st Century takes a contemporary communications oriented perspective on the central questions pertaining to the health of democracies and relationships between citizens journalists and political elites The approach marries clear syntheses of cutting edge research with practical

advice explaining why the insights of scholarship affects students lives With active engaging writing the text will thoroughly explain why things are the way they are how they got that way and how students can use the insights of political communication research to do something about it as citizens Roosevelt and the Munich Crisis Barbara Reardon Farnham, Barbara Farnham, 2000-10-22 Franklin Roosevelt s intentions during the three years between Munich and Pearl Harbor have been a source of controversy among historians for decades Barbara Farnham offers both a theory of how the domestic political context affects foreign policy decisions in general and a fresh interpretation of FDR s post Munich policies based on the insights that the theory provides Between 1936 and 1938 Roosevelt searched for ways to influence the deteriorating international situation When Hitler s behavior during the Munich crisis showed him to be incorrigibly aggressive FDR settled on aiding the democracies a course to which he adhered until America s entry into the war This policy attracted him because it allowed him to deal with a serious problem the conflict between the need to stop Hitler and the domestic imperative to avoid any risk of American involvement in a war Because existing theoretical approaches to value conflict ignore the influence of political factors on decision making they offer little help in explaining Roosevelt s behavior As an alternative this book develops a political approach to decision making which focuses on the impact that awareness of the imperatives of the political context can have on decision making processes and through them policy outcomes It suggests that in the face of a clash of central values decision makers who are aware of the demands of the political context are likely to be reluctant to make trade offs seeking instead a solution that gives some measure of satisfaction to all the values implicated in the decision **Cultural Strategies of Agenda Denial** Roger W. Cobb, Marc Howard Ross, 1997 This is the first book devoted to examining why some issues proposed by aggrieved individuals or groups are denied access to policy agendas The book contains case studies that look at the policy process from the perspective of the strategies opponents often use to ensure agenda denial strategies usually motivated by perceived threats to widely held world views and identities

Neopluralism Andrew S. McFarland, 2004 Many of the basic issues of political science have been addressed by pluralist theory which focuses on the competing interests of a democratic polity their organization and their influence on policy Andrew McFarland shows that this approach still provides a promising foundation for understanding the American political process **Organizational Behavior and Human Decision Processes** ,1995 *Unfair Housing* Mara S. Sidney, 2003 It is difficult to ignore the fact that even as the United States becomes much more racially and ethnically diverse our neighborhoods remain largely segregated The 1968 Fair Housing Act and 1977 Community Reinvestment Act promised to end discrimination yet for millions of Americans housing options remain far removed from the American Dream Why do most neighborhoods in American cities continue to be racially divided The problem suggests Mara Sidney lies with the policies themselves She contends that to understand why discrimination persists we need to understand the political challenges faced by advocacy groups who implement them In *Unfair Housing* she offers a new explanation for the persistent color lines in our

cities by showing how weak national policy has silenced and splintered grassroots activists Sidney explains how political compromise among national lawmakers with divergent interests resulted in housing legislation that influenced how community activists defined discrimination what actions they took and which political relationships they cultivated As a result local governments became less likely to include housing discrimination on their agendas existing laws went unenforced and racial segregation continued A former undercover investigator for a fair housing advocacy group Sidney takes readers into the neighborhoods of Minneapolis and Denver to show how federal housing policy actually works She examines how these laws played out in these cities and reveals how they eroded activists capability to force more sweeping reform in housing policy Sidney also shows how activist groups can cultivate community resources to overcome these difficulties looking across levels of government to analyze how national policies interact with local politics In the first book to apply policy design theories of Anne Schneider and Helen Ingram to an empirical case Sidney illuminates overlooked impacts of fair housing and community reinvestment policies and extends their theories to the study of local politics and nonprofit organizations Sidney argues forcefully that understanding the link between national policy and local groups sheds light on our failure to reduce discrimination and segregation As battles over fair housing continue her book helps us understand the shape of the battlefield and the prospects for victory

The Policy Process Stuart S. Nagel, 1999 Since the passage of national welfare reform legislation in the areas of welfare employment health and social services have been changing rapidly This book discusses many of the different changes that these policies have gone through in recent years as well as the shift of responsibility toward state and local government for these changes It is divided into Part One Federal State and Local Relations Part Two Executive Legislative and Judicial Relations Part Three The Group Struggle Part Four Public Values Part Five Democracy With Resistance

Changing Public Policy Stefaan De Rynck, 2002 Regional government has become a fashionable topic of analysis but the impact of regional autonomy on public policy has so far received little attention In this book Stefaan De Rynck examines how the creation of regional government has affected the substance of public policies in Belgium He explains the observed pattern of policy change by referring to shifts in regional power structures His publication offers a political analysis of policy change and warns against concluding that public policy is responsive to social problems or cultural differences between regional societies The book demonstrates the importance of political action for understanding

the link between political institutions and policy change In its case studies Changing Public Policy The Role of the Regions focuses on the development of education and agri environmental policy in Flanders and Wallonia since 1988 the year in which competence for these sectors was transferred from the national to the regional level The research material on the policy cases covers a twelve year period It is based on a wide range of interviews and extensive documentary analysis This study based on a thesis presented at the European University Institute was awarded a distinction in the annual Committee of the Regions thesis competition in 2001 **Annual Review of Psychology** Calvin P.
