Schelling And Modern European Philosophy An Introduction:

Schelling and Modern European Philosophy Andrew Bowie, 2002-01-04 Andrew Bowie's book is the first introduction in English to present F W J Schelling as a major European philosopher in his own right. Schelling and Modern European Philosophy surveys the whole of Schelling's philosophical career lucidly reconstructing his key arguments particularly those against Hegel and relating them to contemporary philosophical discussion. For anyone interested in German romanticism and the development of Continental philosophy this is an invaluable source book. The cogent and subtle argument of this book fills a major gap in our understanding of modern philosophy in which Schelling emerges as a key transitional figure.

Schelling's Philosophy G. Anthony Bruno, 2020-03-26 The current wave of critical and historical engagement with idealist texts affords an unprecedented opportunity to discover the richness and value of the thought of F W J Schelling. In this volume leading scholars offer compelling reasons to regard Schelling as one of Kant's most incisive interpreters, a pioneering philosopher of nature, a resolute philosopher of human finitude and freedom, a nuanced thinker of the bounds of logic and self-consciousness and perhaps Hegel's most effective critic. The volume provides a wide-ranging presentation of Schelling's original contribution to and internal critique of the basic insights of German idealism, his role in shaping the course of post-Kantian thought and his sensitivity and innovative responses to questions of lasting metaphysical, epistemological, ethical, aesthetic and theological importance. First Published in 1999 Routledge is an imprint of Taylor Francis, an informa company. **Deleuze and Ricoeur** Declan Sheerin, 2009-08-03 What is the self? Is it the impregnable cogito of Descartes or the shattered self of Nietzsche? Or has it become serendipitously constituted from pieces of fairy tales and novels, childhood comics and soap operas, a multitude of forces culled from fashion, modern myth, culture and recreation? Or must we still convince ourselves like Rousseau that the self can never be tainted, that it is above all else irrefrangible? Paul Ricoeur proposed that the self is formed within the narratives we tell of ourselves, that it is itself a form of narrative. But is this enough? Could a self cohere in a multitude of potential narratives or find unity among its stories? In this book Declan Sheerin challenges the theory that the self is narrative alone or that concordance reigns over discordance in the self. Drawing upon the works of Gilles Deleuze, he proposes that deep to the sense of a unified represented self is a more fundamental self of difference, a self that is more than merely coherent narrative.

Nicholas Lezard, Guardian Book Jacket. **Schelling's Late Philosophy in Confrontation with Hegel** Peter Dews, 2022-12-02 This book provides a detailed and comprehensive overview of the work of the German philosopher Friedrich Wilhelm Joseph Schelling (1775-1854). Out of the three major thinkers of the immediate post-Kantian period, Fichte, Schelling, and Hegel, Schelling has received relatively little attention in the anglophone world. The book begins by tracing the development of Schelling's earlier work but concentrates on clearly explaining his
