William Paton Buchan

Practical Mathematics Five Practical Mathematics:

Practical Mathematics Charles S. Ross, Mary M. Ross, Beckley-Cardy Company, Chicago. Benefic Press, 1976 Emphasis is on the ability to perform computations and understand measurement and geometry that will be applicable to practical use in daily life

Adults' Mathematical Thinking and Emotions Jeff Evans, 2002-01-04 The crisis around teaching and learning of mathematics and its use in everyday life and work relate to a number of issues These include The doubtful transferability of school maths to real life contexts the declining participation in A level and higher education maths courses the apparent exclusion of some groups such as women and the aversion of many people to maths This book addresses these issues by considering a number of key problems in maths education and numeracy differences among social groups especially those related to gender and social class the inseparability of cognition and emotion in mathematical activity the understanding of maths anxiety in traditional psychological psychoanalytical and feminist theories how adults numerate thinking and performance must be understood in context The author's findings have practical applications in education and training such as clarifying problems of the transfer of learning and of countering maths anxiety

Children's Mathematics Maulfry Worthington, Elizabeth Carruthers, 2003-06-02 Drawing on their many years experience of teaching children 3 to 8 years the authors explain the development and range of young children's mathematical marks and representations
