Lurquin, 2005 Drawing links between

genetic and cultural development Cavalli Sforza developed groundbreaking techniques to trace the evolution of Homo sapiens and the origins of human differentiation in addition to his earlier work in bacterial genetics He is also the founder of the Human Genome Diversity Project and continues to work as the principal investigator at Stanford University's Human Population Genetics Laboratory Based on extensive research and interviews with Cavalli Sforza and his colleagues this biography examines the scientist's life and his immense and occasionally controversial contributions to genetics anthropology and linguistics **The Earth as Transformed by Human Action** B. L. Turner, William C. Clark, Robert W. Kates, John F.

Richards, Jessica T. Mathews, William B. Meyer, 1993-01-29 *The Earth as Transformed by Human Action* is the culmination of a mammoth undertaking involving the examination of the toll our continual strides forward technical and social take on our world The purpose of such a study is to document the changes in the biosphere that have taken place over the last 300 years to contrast global patterns of change to those appearing on a regional level and to explain the major human forces that have driven these changes The first section deals strictly with the major human forces of the past 300 years and the second is a detailed account of the transformations of the global environment wrought by human action The final section examines a range of perspectives and theories that purport to explain human actions with regard to the biosphere **Proceedings of**
