Political Campaigning A New Decade:

Communication Consultants in Political Campaigns Robert V. Friedenberg, 1997-10-28 We will never know the precise identity of America's first political consultant. It is likely that candidates were seeking favorable coverage in colonial newspapers as early as 1704; it is also likely that by 1745 candidates were using handbills and pamphlets to augment press coverage of campaigns and we know that one successful candidate George Washington in 1758 purchased refreshments for potential voters. These traditional approaches to winning votes have in recent years been amplified by consultants who have shown how cable networks, videocassettes, modems, faxes, focus groups and other means of communication can be put to partisan use. In this book Robert V. Friedenberg examines all of the communication techniques used in contemporary political campaigning. After providing a history of political consulting, Friedenberg examines the principal communication specialities used in contemporary campaigns. Throughout, political consultants discuss their approaches and evaluate the benefits and shortcomings of these methods. An invaluable text for what is arguably the most rapidly changing field of applied communication, this work is a must reading for students and researchers of American politics, applied communication and contemporary political theory.

Political Marketing in the United States Jennifer Lees-Marshment, Brian Conley, Kenneth Cosgrove, 2014-08-28 Political Marketing in the United States explores how politicians and parties utilize marketing concepts and tools, providing an up-to-date and broad overview of how marketing permeates U.S. politics. The volume focuses on current and recent elections and leaders and covers a range of topics including market research, marketing parties and volunteers, strategy and branding, communications, delivery and marketing in government. The main themes and objectives of the book are to cover New and emerging trends in political marketing practice. Analysis of a broad range of political marketing aspects. Empirical examples as well as useful theoretical frameworks. Discussion of state, local level as well as presidential politics. This is the first comprehensive treatment of the subject available and captures the field as it is rapidly growing. It is a must read for students and scholars of political parties, political communication, applied politics and elections.

Citizen Participation and Political Communication in a Digital World Alex Frame, Gilles Brachotte, 2015-11-06 The arrival of the participatory web 2.0 has been hailed by many as a media revolution bringing with it new tools and possibilities for direct political action. Through specialised online platforms, mainstream social media or blogs, citizens in many countries are increasingly seeking to have their voices heard online, whether it is to lobby to support or to complain about their elected representatives. Politicians too are adopting new media in specific ways, though they are often criticised for failing to seize the full potential of online tools to enter into dialogue with their electorates. Bringing together perspectives from around the world, this volume examines emerging forms of citizen participation in the face of the evolving logics of political communication and provides a unique and original focus on the gap which exists between political uses of digital media by the politicians and by the people they represent.

The Blood, Sweat, and Tears of Political Victory...and

Defeat R. R. Bob Greive, 1996-07-28 Annually 250 000 people 500 000 in presidential election years seek elective office in the U S not to mention thousands of others in England Canada and Australia Most of these office seekers are one time only candidates After filing they realize that winning constitutes more than simply buying some printing and going to a few political meetings Most have no notion how to raise money target special interest groups fight off the political smear or allocate their time This book will appeal to neophytes as well as to the seasoned politician It s a how to get elected book with a difference Rather than provide a bare bones step by step prescription for conducting a campaign the book supplements the prescription with hundreds of ideas used by candidates both successful and unsuccessful for offices ranging from the local water commissioner to the presidency Contents Merchandising the Common Touch The Money Ritual Polling Advertising Anatomy of a Smear News as a Political Tool Political Strategy Reporting Regulation and Taxation of Campaign Funds Making the Decision Policy and Politics for Nurses Diana J.
